

37.03.08 – WATER APPROPRIATION RULES

000. LEGAL AUTHORITY ~~(RULE 0).~~

The Director of the Idaho Department of Water Resources adopts these rules under the legal authority ~~provided by of~~
Section 42-1805(8), Idaho Code. (3-18-22)()

001. TITLE AND SCOPE ~~(RULE 1).~~

01. **Title.** These rules are titled IDAPA 37.03.08, “Water Appropriation Rules.” (3-18-22)

02. **Scope.** ~~_____ (3-18-22)~~

~~a. Background and Purpose. The 1985 Idaho Legislature authorized reallocation of certain hydropower water rights to new upstream beneficial uses. The reallocation is to be accomplished using statutes designed to provide for the appropriation of unappropriated public water supplemented by a public interest review of those reallocations which significantly reduce existing hydropower generation. These rules provide set the procedures for obtaining the right to divert and use unappropriated public water as well as and sources within the Swan Falls trust water previously appropriated for hydropower use which has been placed in trust with the State of Idaho and is subject to reallocation area. Guidelines are provided for These rules govern the filing and processing of applications, for permit to appropriate water and establish criteria are established for determining the actions to be taken by the Director evaluating such applications. (3-18-22)()~~

~~b. Scope and Applicability. These rules are applicable to appropriations from all sources of unappropriated public water in the state of Idaho under the authority of Chapter 2, Title 42, Idaho Code. Sources of public water include rivers, streams, springs, lakes and groundwater. The rules are also applicable to the reallocation of hydropower water rights held in trust by the state of Idaho. The rules are applicable to all applications to appropriate water filed with the Department of Water Resources prior to the effective date of these rules upon which an action to approve or deny the application is pending and to all applications filed subsequent to adoption of the rules and regulations. In addition, the rules are applicable to existing permits to appropriate water required to be reviewed under the provisions of Section 42-203D, Idaho Code. (3-18-22)~~

002. -- 009. (RESERVED)

010. DEFINITIONS ~~(RULE 10).~~

~~Unless the context otherwise requires, the following definitions govern these rules: The terms “consumptive use,” “local public interest,” “municipal purposes,” “planning horizon,” “reasonably anticipated future needs,” and “service area” have the meaning given for those terms in Section 42-202B, Idaho Code. The terms “ground water” and “low temperature geothermal resource” have the meaning given for those terms in Section 42-230, Idaho Code. The term “critical ground water area” has the meaning given for that term in Section 42-233a, Idaho Code. (3-18-22)()~~

01. **Acre-Foot (AFaF).** A volume of water sufficient to cover one (1) acre of land one (1) foot deep and is equal to forty-three thousand five hundred sixty (43,560) cubic feet. (3-18-22)()

~~02. **Advertisement.** The action taken by the Director to provide notice, usually by publication of a legal notice in one (1) or more newspapers, of a proposed appropriation or other notice required in administration of his duties and responsibilities. (3-18-22)~~

032. **Applicant.** The person, corporation, association, firm, governmental agency, or other entity, or the holder of a permit being reprocessed pursuant to Section 42-203D, Idaho Code, who initiates an appropriation of water or related water matter for the Director’s consideration applies to beneficially use water. (3-18-22)()

043. **Application for Permit.** The written request An application for permit to appropriate water filed with the dDepartment on forms furnished by the department proposing to appropriate the public waters or trust waters

of the state. _____ (3-18-22)()

054. Board. The Idaho Water Resource Board. (3-18-22)

06. Beneficial Use. One (1) or more of the recognized beneficial uses of water including but not limited to, domestic, municipal, irrigation, hydropower generation, industrial, commercial, recreation, stockwatering and fish propagation uses for which permits to appropriate water can be issued as well as other uses which provide a benefit to the user of the water as determined by the Director. Industrial use as used for purposes of these rules includes, but is not limited to, manufacturing, mining and processing uses of water. (3-18-22)

075. Cubic Foot Per Second (CFScs). A rate of flow approximately equal to four hundred forty-eight and eight-tenths (448.8) gallons per minute and ~~also equals to~~ equal to fifty (50) Idaho miner's inches. (3-18-22)()

08. DCMI. An acronym for domestic, commercial, municipal and industrial. In these rules it designates certain classes of these uses presumed to satisfy public interest requirements. Domestic use, for purposes of this definition, is water for one or more households and water used for all other purposes including irrigation of a residential lot in connection with each of the households where the diversion to each household does not exceed thirteen thousand (13,000) gallons per day. Also for purposes of this definition, commercial, municipal and industrial uses are any such uses which do not deplete the system containing the trust water more than two (2) acre feet per day. (3-18-22)

096. Department. The Idaho Department of Water Resources. (3-18-22)

107. Director. The Director of the Idaho Department of Water Resources or a Department employee with authority delegated under Section 42-1701, Idaho Code. (3-18-22)()

11. Legal Subdivision. A tract of land described by the government land survey and usually is described by government lot or quarter-quarter, section, township and range. A lot and block of a subdivision plat recorded with the county recorder may be used in addition to the quarter-quarter, section, township and range description. (3-18-22)

08. Murphy Gage. The United States Geological Survey stream gage station for the Snake River near Murphy, Idaho (site identification number 131725000) the location of which is set forth in remark number two, as amended, of the Snake River Basin Adjudication partial decrees for water right nos. 02-00100, 02-02001A, 02-02001B, 02-02032A, 02-02032B, 02-02036, 02-02056, 02-02057, 02-02059, 02-02060, 02-02064, 02-02065, 02-04000A, 02-04000B, 02-04001A, 02-4001B, 02-10135, 36-02013, 36-02018, 36-02026, 37-02128, 37-02471, 37-02472, 37-20709, and 37-20710. ()

Formatted: Font: Bold

Formatted: Font: Bold

1209. Permit or Water Right Permit. The water right document issued by the Director authorizing the diversion and use of unappropriated public waters of the state or sources of water held within the Swan Falls trust by the state water area. (3-18-22)()

130. Priority, or Priority of Appropriation, or Priority Date. The date of appropriation established in the development of a water right. The priority of a water right for public water or trust water is used to determine the order of water delivery from a source during times of shortage. The earlier or prior date being the better right an application is filed in acceptable form unless a different date is set in accordance with applicable law. (3-18-22)()

141. Project Works. A general term ~~which that~~ includes diversion works, conveyance ~~works~~ infrastructure, and any devices ~~which may be~~ used to apply the water to the intended use. Improvements ~~which have been~~ made as a result of application of water, such as land preparation for cultivation, are not a part of the project works. (3-18-22)()

15. Single Family Domestic Purposes. Water for household use or livestock and water used for all other purposes including irrigation of up to one-half (1/2) acre of land in connection with said household where total use is not in excess of thirteen thousand (13,000) gallons per day. (3-18-22)

162. Subordinated Water Right. A water right used for hydropower generation purposes that is subject to diminishment or depletion without compensation by upstream water rights which are initiated later in time and which are for a purpose other than hydropower generation purposes. (3-18-22)()

17. Trust Water. That portion of an unsubordinated water right used for hydropower generation purposes which is in excess of a minimum stream flow established by state action either with agreement of the holder of the hydropower right as provided by Section 42-203B(5), Idaho Code or without an agreement as provided by Section 42-203B(3), Idaho Code. (3-18-22)

13. Swan Falls Trust Water Area. The reach of the Snake River extending downstream from Milner Dam (located in Sections 28 and 29, Township 10 South, Range 21 East, Boise Meridian) to Swan Falls Dam (located in Section 18, Township 2 South, Range 1 East, Boise Meridian) and all surface and ground water sources tributary to that reach of the Snake River. The Swan Falls trust water area excludes any reach of the Snake River upstream of Milner Dam or any surface or ground water tributary to the Snake River upstream of Milner Dam. The area within which ground water is presently designated tributary to the reach of the Snake River extending downstream from Milner Dam to Swan Falls Dam is depicted in APPENDIX A. ()

184. Unappropriated Water. The public waters of the state of Idaho in streams, rivers, lakes, springs, or ground water in excess of that exceeding the amount necessary to satisfy prior water rights including prior rights reserved by federal law. (3-18-22)()

15. Water Right Held in Trust. That portion of an unsubordinated water right used for hydropower generation purposes which is in excess of a minimum stream flow established by state action and held in trust by the state of Idaho in accordance with Section 42-203B(5), Idaho Code. ()

011. -- 024. (RESERVED)

025. GENERAL DESCRIPTION OF THE PROCEDURE TO BE USED FOR ALLOCATION (RULE 25).

01. Applications to Appropriate Unappropriated Water and Water Held in Trust. The Director will process applications to appropriate unappropriated water and water held in trust as provided by Section 42-203B(3), Idaho Code, will be as described in Section 040, and evaluated them as described in Subsection 045.01, using the criteria of Section 42-203A(5), Idaho Code, which requires an assessment to be made of the impact of the proposed use on water availability for existing water rights, the adequacy of the water supply for the proposed use, whether the application is filed for speculative purposes, the financial ability of the applicant to complete the project, and the effect of the proposed use on the local public interest. (3-18-22)()

02. Applications to Appropriate Water from Sources Held by State in the Swan Falls Trust Water Area. The Director will process applications to appropriate water from sources on which the state holds water in the Swan Falls trust water area, pursuant to Section 203B(5), Idaho Code, will be processed in a three-step analysis. Evaluation will consider the purposes of "trust water" established in Section 42-203B, Idaho Code, as described in Section 040, and evaluated as follows: (3-18-22)()

a. First, the proposed use must be Director will evaluated the application as described in Subsection 045.01, using the procedures and criteria of Section 42-203A(5), Idaho Code. If the application satisfies all criteria of Section 42-203A(5), Idaho Code, are satisfied, the Director will approve the application may be approved for unappropriated water. If the application does not satisfy the criteria of Section 42-203A(5) b, c, d, and e through (g), Idaho Code, or is found to reduce the water to existing water rights other than those a water right held in trust by the state, the Director will deny the application will be denied. If the application satisfies all criteria of Section 42-203A(5), Idaho Code, except Section 42-203A(5)(a), Idaho Code, but is found to reduce water held in trust by the state, the Director will review the application will be reviewed under criteria of Section 42-203C, Idaho Code Paragraph 025.02.c. (3-18-22)()

b. Second, the Director will evaluate the application as described in Subsection 045.02, to determine

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

~~whether it would cause a significant reduction under criteria in Section 42-203C(1), Idaho Code, requires a determination of whether the proposed use will significantly reduce, individually or cumulatively with existing uses and other uses reasonably likely to exist within twelve months of the proposed use, the amount of trust water available to the holder of the water right used for power production that is defined by agreement pursuant to subsection (5) of Section 42-203B, Idaho Code (hereinafter termed "significant reduction"). If the application will not cause a significant reduction will not occur, the Director will approve the application may be approved without an additional evaluation of the public interest criteria of Section 42-203C(2), Idaho Code. If the application will cause a significant reduction, the Director will review the application under Paragraph 025.02.c.~~

~~(3-18-22)()~~

~~c. Third, based upon a finding of if the application will cause a significant reduction, the proposed use will be evaluated Director will evaluate the application as described in Subsection 045.03, to determine if the proposed reduction is in terms of the public interest under the criteria of Section 42-203C(2), Idaho Code. If the application is in the local public interest, the Director will approve the application. If the application is not in the local public interest, the Director will deny the application.~~

~~(3-18-22)()~~

026. -- 02934. (RESERVED)

030. LOCATION AND NATURE OF TRUST WATER (RULE 30).

~~01. Snake River Water Rights Agreement. The legislation ratifying the Snake River water rights agreement between the state of Idaho and Idaho Power Company places in trust a part of the flows available to Idaho Power Company under its hydropower water rights in the Snake River Basin between Swan Falls Dam and Milner Dam. The flows subject to the trust water provisions and reallocation under Section 42-203C(2), Idaho Code, are as follows:~~

~~(3-18-22)~~

~~a. Trust water flows under the Snake River water rights agreement are located in the Snake River between Swan Falls Dam located in Section 18, Township 2 South, Range 1 East, Boise Meridian (B.M.) and Milner Dam located in Sections 28 and 29, Township 10 South, Range 21 East, Boise Meridian (B.M.) and all surface and groundwater sources tributary to the Snake River in that reach.~~

~~(3-18-22)~~

~~b. Surface water and groundwater tributary to the Snake River upstream from Milner Dam is not trust water. After giving notice and considering public comment, the Director will designate the area in which groundwater is presumed to be tributary to the Snake River upstream from Milner Dam. Modification or changes in the designated boundary may be made only after providing notice and considering public comment. The area presently designated as tributary to the Snake River in the Milner Dam to Swan Falls Dam reach is appended to these rules (See Attachment A in APPENDIX A located at the end of this chapter), for information purposes only.~~

~~(3-18-22)~~

~~c. Trust water flows under the Snake River water rights agreement are those occurring in the Snake River and tributaries in the geographic area designated in Subsection 030.01.a. that exceed the established minimum stream flows but are less than the water rights for hydropower generating facilities in the Swan Falls Dam to Milner Dam reach of Snake River, to the extent such rights were unsubordinated prior to the Snake River water rights agreement. Minimum average daily flows have been established by action of the Board and legislature at the U.S. Geological Survey gauging station located near Murphy (Section 35, Township 1 South, Range 1 West B.M.) in the amount of three thousand nine hundred (3900) cfs from April 1 to October 31 and five thousand six hundred (5600) cfs from November 1 to March 31, and at Milner gauging station located in Section 29, Township 10 South, Range 21 East, B.M. in the amount of zero (0) cfs from January 1 to December 31.~~

~~(3-18-22)~~

~~02. Trust Water Created by State Action. Section 42-203B(3), Idaho Code, provides that trust water can be created by state action establishing a minimum flow without an agreement with the holder of the hydropower water right. Allocation of trust water so established will be pursuant to state law except the criteria of Section 42-203C, Idaho Code, will not be considered.~~

~~(3-18-22)~~

~~03. Sources of Public Water Not Trust Water. The following sources of public water are not trust water and are not subject to the public interest provisions of Section 42-203C, Idaho Code:~~

~~(3-18-22)~~

Formatted: Section Name TOC2

~~_____ a. _____ Sources or tributaries to sources upon which no hydropower generating facilities are located downstream within the state of Idaho. _____ (3-18-22)~~

~~_____ b. _____ Sources or tributaries to sources which have a state hydropower water right permit or license or Federal Energy Regulatory Commission license which have not been subordinated, and the state of Idaho has not entered into an agreement with the holder of the hydropower water right pursuant to Section 42-203B(2), Idaho Code, and the State of Idaho has not established a minimum stream flow for purposes of protecting hydropower generation. _____ (3-18-22)~~

~~_____ c. _____ Sources or tributaries to sources for which a state hydropower water right permit or license, or the Federal Energy Regulatory Commission license included a subordination condition. Such flows are considered to be public waters subject to appropriation under the provisions of Section 42-203A, Idaho Code. _____ (3-18-22)~~

~~_____ d. _____ Flows in excess of established rights including rights used for hydropower purposes. Such flows are unappropriated waters subject to allocation under Section 42-203A, Idaho Code. _____ (3-18-22)~~

~~_____ e. _____ Flows in the Snake River upstream from Milner Dam and all surface and groundwater tributaries to that reach. Such flows are subject to allocation under Section 42-203A, Idaho Code, without consideration of water rights existing downstream from Milner Dam (Reference: 42-203B(2), Idaho Code). _____ (3-18-22)~~

~~031. -- 034. (RESERVED)~~

035. APPLICATION REQUIREMENTS ~~(RULE 35).~~

01. General Provisions. (3-18-22)

~~_____ a. _____ No person shall commence the construction of any project works or commence the diversion of the public water or trust water of the state of Idaho from any source without first having filed an application for permit to appropriate the water or other appropriate form with the department and received approval from the Director, unless exempted by these rules or by statute. _____ (3-18-22)~~

~~_____ b. _____ Any person proposing to commence a diversion of the public water or the trust water of the state of Idaho from a groundwater source for single family domestic purposes is exempt from the application and permit requirements of Subsection 035.01.a. _____ (3-18-22)~~

~~_____ c. _____ Any person watering livestock directly from a natural stream or natural lake without the use of a constructed diversion works is exempt from Subsection 035.01.a. _____ (3-18-22)~~

~~**da.** All applications for permit to appropriate public water or trust water of the state of Idaho shall must be filed: ()~~

~~_____ i. _____ On the form provided, which may include attachments, prescribed by the dDepartment entitled "Application for Permit to Appropriate the Public Waters of the State of Idaho;" and include ()~~

~~_____ ii. _____ In accordance with IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources," Section 053, either on paper, in PDF format, or through the Department's online filing process; ()~~

~~_____ iii. _____ With the applicable filing fee set forth in Section 42-221A, Idaho Code; and ()~~

~~_____ iv. _____ With all necessary information as described in Subsection 035.03. ()~~

~~**b.** The filing fees in Section 42-221A, Idaho Code, are based on the total rate (in cfs) or the total storage volume (in af) to be appropriated. Whenever the application diversion rate and storage volume elements lead to different filing fees, the higher amount is the applicable filing fee. ()~~

Formatted: Font: Bold

~~g.~~ The Department will determine whether an application is acceptable for filing or requires clarification or corrections. ()

Formatted: Font: Bold

~~h.~~ ~~A~~When an application for permit that is not complete acceptable for filing, as described in Subsection 035.03, the Department will not be accepted for filing the application and will be returned along with any proceed as directed in Section 42-204(1), Idaho Code. Filing fees submitted for an unacceptable application will be refunded to the person submitting the application applicant. No An unaccepted application does not establish a priority date will be established by an incomplete application. Applications meeting the requirements of Subsection 035.03 will be accepted for filing and will be endorsed by the department as to the time and date received. The acceptability of applications requiring clarification or corrections shall be determined by the Director. (3-18-22)()

Formatted: Font: Bold

~~e.~~ The department will correspond with the applicant concerning When an applications which have been is accepted for filing by the department which but requires clarification or correction of the information required by Subsection 035.03. If the additional or corrected information is supplied after thirty (30) days, the priority date of the application will be determined by the date the additional or corrected information is received by the department unless the applicant has requested within the thirty (30) day period additional time to provide the information, has shown good reasons for needing additional time, and the Director has granted additional time, the Department will proceed as directed in Section 42-204(1), Idaho Code. (3-18-22)()

~~f.~~ Failure to submit the additional or corrected information is cause for the Director to void the department's records of the application. (3-18-22)

02. Effect of an Application. (3-18-22)

~~a.~~ Any application that seeks to appropriate water from a source upon which the state holds trust water shall be considered an application for appropriation of unappropriated water. If the Director determines unappropriated water is not available, the application, if otherwise approvable, will be reviewed for compliance with provisions of Section 42-203C, Idaho Code. (3-18-22)

~~ba.~~ The priority date of an application for unappropriated or trust water is established as of the time and date the Department received the application is received in complete a form along with acceptable for filing with the statutory filing fee in any official office of the department. The priority date of the application remains fixed unless changed by an action of the Director in accordance with applicable law. (3-18-22)()

~~eb.~~ An application for permit to appropriate water is not a water right and does not authorize diversion or use of water until approved by the Director in accordance with statutes the laws in effect at the time the application is approved. (3-18-22)()

~~ec.~~ An applicant's interest in an application for permit to appropriate water is personal property. An assignment of interest in an application must include evidence satisfactory to the Director that the application was not filed for speculative purposes applicant may convey (assign) their interest in an application to another person or entity. The person or entity conveyed the application must notify the Department of the assignment, in writing, within thirty (30) days after the assignment. (3-18-22)()

03. Requirements for Applications to Be Acceptable for Filing. (3-18-22)

~~a.~~ The following information shall be shown on an An application for permit form and submitted together with the statutory fee to an office of the department before the application for permit may be accepted is acceptable for filing by the department, if it is filed in a manner stated in Subparagraphs 035.01.a. through iii. and includes the following information: (3-18-22)()

~~ia.~~ The nName and post office mailing address of the applicant shall be listed. ()

Formatted: Font: Bold

i. If the application applicant is in the name of a corporation, also include the names and addresses of its all directors and officers shall be provided. ()

ii. If the application applicant is filed by or on behalf of a partnership, limited liability company, or joint venture, the application shall provide also include the names and addresses of all members or partners and designate the name of the managing member or partner, if any. (3-18-22)()

ib. The name of the water sSource sought to be appropriated shall be listed of water appropriating. ()

Formatted: Font: Bold

i. Identify only one water source unless the application is for a single interconnected system that will divert water from more than one source. ()

ii. For a surface water sources, the source of water shall be identified by include the official geographic name listed on the U.S. United States Geological Survey (USFS) Quadrangle map. If the surface water source has is not been named on the USGS Quadrangle map, it can be described as "unnamed," but identify the system or river to which it the source is tributary shall be identified. ()

iii. For ground a water sources under the ground surface, identify the source shall be listed as "ground water." Only one source shall be listed on an application unless the application is for a single system which will have more than one source. ()

iv. For a low temperature geothermal resource, state how the source will be used primarily for its heat value and secondarily for its value as water or how the use qualifies for an exemption consistent with Section 42-233, Idaho Code. (3-18-22)()

iiic. The Legal description of the point of diversion and place of use shall be listed. ()

Formatted: Font: Bold

i. Describe the location of the point(s) of diversion and the place of use shall be described to the nearest forty (40) acre subdivision or U.S. United States Government Lot of the Public Land Survey System. ()
The location of springs shall be described to the nearest ten (10) acre tract.

ii. Subdivision names, lot and block numbers, and any name in local common usage for the point of diversion; or place of use shall may be included in the comments section of the application form. ()

iii. If irrigation is listed as a purpose of use is proposed, state the number of acres to be irrigated in each forty (40) acre subdivision of the place of use shall be listed unless the place of use is a generally described place of use for an existing water right or permit. If the applicant owns an existing water right that authorizes a generally described place of use, state the name of the generally described place of use and include a map depicting the generally described place of use boundary. (3-18-22)()

ivd. The qQuantity of water to be diverted shall be listed as a. ()

Formatted: Font: Bold

i. Include the rate of flow in cubic feet per second cfs and/or as a the volume to be stored of water storing in acre-feet af per year for each purpose of beneficial use requested proposed, using values with a maximum of three significant figures with no more precision than hundredths for rate and tenths for volume. (3-18-22)()

vii. Impoundment (storage) For an applications shall show to store water, the maximum acre-feet requirement af per year which shall may not exceed the storage facility capacity of the impoundment structure unless the application describes includes a plan of operation for filling the reservoir facility more than once per year. The refill plan may include refills for seepage, evaporation, use from storage, and other purposes the applicant intends to replace in the storage facility throughout the year. (3-18-22)()

viii. Every For an application to store water in an off-stream storage impoundment application shall show facility, include a maximum rate of diversion to storage as well as and the total storage volume. Unless the storage

facility is the end use of water, the application need not include short-term (24-hour or less) storage that facilitates operation of a water distribution system if the capacity of the storage facility is equal to or less than the volume of water diverted within 24-hours at the requested diversion rate.

~~(3-18-22)()~~

~~vii.e.~~ The nature of the proposed ~~b~~Beneficial use or uses of the water shall be listed. While the purpose may be

Formatted: Font: Bold

~~i.~~ ~~d~~Described the proposed use of the water. So long as the proposed use is described, the description may be in general terms such as irrigation, industrial, or municipal, a description sufficient to identify the proposed use or uses of the water shall also be included. ~~(3-18-22)()~~

~~ii.~~ For a municipal purposes application, attach a complete "Municipal Water Right Application Checklist." The "Municipal Water Right Application Checklist" is a form attachment available from the Department. ~~()~~

~~iii.~~ For a municipal purposes application that proposes to appropriate water for reasonably anticipated future needs, include justification for the service area, planning horizon, population projection, and water demand within the service area at the end of the planning horizon. Also include a gap analysis showing the existing water right is insufficient to meet the municipal purposes need at the end of the planning horizon. ~~()~~

~~iv.~~ For a municipal purposes application that does not propose to appropriate water for reasonably anticipated future needs, include a water requirement narrative with a map of the service area, current water needs, water needs after five years, and any existing plan for assigning the water right to a subdivision homeowners association or other local entity. ~~()~~

~~viii.f.~~ The ~~p~~Period of each year during which water will be diverted, stored and beneficially used shall be listed. The period of use. ~~()~~

Formatted: Font: Bold

~~i.~~ ~~f~~For irrigation purposes shall use, the period of use must coincide with the annual periods of use shown in Figure 1 in APPENDIX B (located at the end of this chapter), unless it can be shown to the satisfaction of the Director that a different period of use is necessary. ~~(3-18-22)()~~

~~ix.g.~~ The proposed method of diversion, conveyance system and system. All proposed project works for diverting, distributing, and using the water shall be described. ~~(3-18-22)()~~

Formatted: Font: Bold

~~h.~~ Any other water right used at the place of use. Include water right number or name of the delivery organization, such as a municipal provider, canal company, or irrigation district, that supplies water for the same use at the same place of use proposed in the application, if any. ~~()~~

Formatted: Font: Bold

~~j.~~ Ownership or other legal access to the point of diversion, place of use, and conveyance. If the someone other than the applicant owns the point of diversion, place of use, or conveyance property, include a description of the arrangement enabling the applicant to file the application. ~~()~~

Formatted: Font: Bold

~~xj.~~ The ~~p~~Period of time required for completion of the project works and application of water to the proposed beneficial use shall be listed. This period of time shall may not exceed the time required to diligently and uninterruptedly apply the water to beneficial use and shall not exceed five (5) years. ~~(3-18-22)()~~

Formatted: Font: Bold

~~xik.~~ A ~~m~~Map or plat of sufficient scale (not less than two (2) inches equal to one (1) mile) to show the project proposed shall be included. The map or plat shall must agree with the legal descriptions and other information shown on the application. ~~(3-18-22)()~~

Formatted: Font: Bold

~~xiii.l.~~ The application form shall be signed by the ~~a~~Applicant listed on the application signature or evidence must be submitted to show that the signatory has authority to sign the application. ~~()~~

Formatted: Font: Bold

i. ~~An~~ For an application in more than one (1) name ~~shall be signed by~~, include the signature of each applicant unless ~~"or" connects~~ the names ~~are joined by "or" or "and/or."~~ (3-18-22)()

xiii. ~~A~~For an applications by a corporations, companies ~~or~~, municipalities, or other organizations ~~shall be signed by~~, include the signature and title of an officer of the corporation or company or an elected official of the municipality or an individual authorized by the organization to sign the application. ~~The signator's title shall be shown with the signature.~~ (3-18-22)()

xiviii. Applications may be signed by a person having a current "power of attorney" If the signatory is an authorized by representative of the applicant. ~~A copy of the~~, include a power of attorney" shall be included with the application or other documentation demonstrating the signatory has legal authority to sign on behalf of the applicant. (3-18-22)()

xv. ~~Applications to appropriate water in connection with Carey Act or Desert Land Entry proposals shall include evidence that appropriate applications have been filed for the lands involved in the proposed project.~~ (3-18-22)

xvi. ~~The application form shall be accompanied with a fee in the amount required by Section 42-221A, Idaho Code.~~ (3-18-22)

04. Amended Applications. (3-18-22)

a. ~~An applicant or the applicant's agent must amend an applications for permit shall be amended whenever significant changes to the place, period or nature of the intended use, method or location of diversion or proposed use of the water if the applicant intends to change the nature of use, period of use, point of diversion, place of use, method or location of water diversion, point of discharge or return flow, amount of diversion or depletion, or make other substantial changes from that shown on the pending application are intended. An application shall be amended if the proposed change will result in a greater rate of diversion or depletion (see Subsection 035.04.e.), if the point of diversion, place of use, or point of discharge of the return flow are to be altered, if the period of the year that water will be used is to be changed, or if the nature of the use is to be changed. The Department may clarify source or tributary names or the irrigation period of use that do not meet Paragraph 035.03.b. and 035.03.f. requirements by documenting the official record without the applicant amending the application.~~ (3-18-22)()

b. ~~An applicant or the applicant's agent may amend an application can be amended to clarify the name of the source of water but may not be amended an application to change the source of water.~~ (3-18-22)()

c. ~~An amendment which that increases the rate of diversion, increases the volume of water diverted or depleted per year or the volume of water depleted, lengthens the period of use, or adds an additional purpose of beneficial use shall will result in the Department changing the application priority of the application for permit being changed date to the date the Department received the amended application is received by the department.~~ (3-18-22)()

d. ~~An application for permit may be amended by endorsement by the applicant or his the applicant's agent may amend an application by:~~ ()

i. ~~Striking each item to be changed on the original application for permit form which endorsement shall be and initialed and dated each change. If the changes required to the information on the application are, in the judgment of the Director, substantial enough to cause confusion in interpreting the application form, the amended application shall be submitted on:~~ ()

ii. ~~Filing a new application for permit form to be designated as an amended application;~~ or ()

iii. ~~Changing an application electronically via the Department's online filing process.~~ (3-18-22)()

e. ~~An~~ If the amendment increases the total diversion rate or total storage volume requested, the amended application ~~shall must be accompanied by include~~ the additional filing fee required by Section 42-221A, Idaho Code, ~~if the total rate of diversion or total volume of storage requested is increased and by the fee required by Section 42-221F, Idaho Code, for readvertising if notice of the original application has been published.~~ (3-18-22)()

f. If the applicant's name or mailing address changes, the applicant ~~shall in writing~~ must notify the ~~d~~Department of the change in writing. (3-18-22)()

036. DELAYED PROCESSING.

~~An applicant may request in writing that the Department delay commencement or interrupt processing of the applicant's application for a period not to exceed one (1) year. The Department may approve the request unless the delay will injure others, the applicant seeks the delay for speculative purposes, or the delay does not serve the public interest of the people of Idaho. The Department may approve a request for delay for a shorter period or upon conditions and may renew the approval upon written request.~~ ()

0367. -- 039. (RESERVED)

040. PROCESSING APPLICATIONS ~~FOR PERMIT AND REPROCESSING PERMITS (RULE 40).~~

01. **General.** ~~The Department will process an application using the following general steps:~~ (3-18-22)()

~~a. Unprotested applications, whether for unappropriated water or trust water, will be processed using the following general steps:~~ (3-18-22)

~~ia. Department reviews the application to determine if the application is acceptable for filing under Subsection 035.03. If the application is not accepted for filing or requires clarification, the Department will request application amendment or clarification per Section 035.~~ ()

~~ib. Director considers whether a moratorium order prohibits processing the application.~~

~~ic. Director considers whether to request additional information under Subsection 040.05. If necessary, the Director will request the additional information.~~ ()

~~id. Advertisement and protest period; under Subsection 040.02.~~ (3-18-22)()

~~iie. Department-Director reviews of the applications and additional available information, including department field review if determined to be necessary by the Director; to evaluate applicable criteria under Section 42-203A(5) or 42-203C, Idaho Code.~~ (3-18-22)()

~~iii. Fact finding If unprotested, the Director may hold a fact-finding hearing or may request the applicant file additional information under Subsection 040.05, if determined to be the Director determines either is necessary by the Director;.~~ (3-18-22)()

~~ii. If protested, the Department initiates informal or formal proceedings to resolve the protest consistent with IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources."~~ ()

~~ivf. Director's decision; on the application in the form of a preliminary order or final order as defined in IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources."~~ (3-18-22)()

~~v. Section 42-1701A, Idaho Code, hearing, if requested; and~~ (3-18-22)

~~g. Applicant may challenge or appeal the decision in accordance with IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources."~~ ()

~~vi~~**h.** Director's decision affirmed or modified. (3-18-22)()

Formatted: Font: Bold

~~b.~~ Protected applications, whether for unappropriated water or trust water, will be processed using the following general steps: (3-18-22)

~~i.~~ Advertisement and protest period; (3-18-22)

~~ii.~~ Hearing and/or conference; (3-18-22)

~~iii.~~ Department review of applications, hearing record and additional information including department field review if determined to be necessary by the Director. (3-18-22)

~~iv.~~ Proposed decision (unless waived by parties); (3-18-22)

~~v.~~ Briefing or oral argument in accordance with the department's adopted Rules of Procedure. (3-18-22)

~~vi.~~ Director's decision accepting or modifying the proposed decision. (3-18-22)

~~c.~~ The Director's decision rejecting and denying approval of an application for permit filed for diversion from a source previously designated as a critical groundwater area or upon which a moratorium has previously been entered may be issued without advertisement of the application. (3-18-22)

~~d.~~ An applicant may request in writing that commencement of processing of his or her application be delayed for a period not to exceed one (1) year or that processing be interrupted for a period not to exceed six (6) months. The Director at his discretion may approve the request unless he determines that others will be injured by the delay or that the applicant seeks the delay for the purpose of speculation, or that the public interest of the people of Idaho will not be served by the delay. The Director may approve a request for delay for a shorter period of time or upon conditions, and may renew the approval upon written request. (3-18-22)

02. Public Notice Requirement. (3-18-22)

~~a.~~ AAdvertisement of an applications for permit which have not been advertised will be in accordance with Section 42-203A, Idaho Code. (3-18-22)()

~~i.~~ Advertisement of applications for permit proposing a rate of diversion of ten (10) cfs or less or storage of one thousand (1000) AF or less shall comply with Section 42-203A, Idaho Code. The first required advertisement will be published on the first or third Thursday of a month when published in daily newspapers and on the first or third publishing day of the month for weekly newspapers. (3-18-22)

~~ii.~~ Advertisement of applications for permit in excess of the amounts in Subsection 040.02.a.i. shall comply with Subsection 040.02.a.i. and shall also be published in a newspaper or newspapers to achieve statewide circulation. (3-18-22)

~~iii~~**b.** Statewide For an application that proposes diversion in excess of ten (10) cfs or one thousand (1,000) af, the Director will accomplish statewide circulation with respect to required by Section 42-203A(2), Idaho Code, shall be obtained by publication of a legal notice at least once each week for two (2) successive weeks in a newspaper, as defined in Section 60-106, Idaho Code, of general circulation in the county in which the point of diversion is located and by publication of a legal notice at least once each week for two (2) successive weeks in at least one (1) daily newspaper, as defined in Section 60-107, Idaho Code, published in each of the dDepartment's four (4) administrative regions and determined by the Director to be determines is of general circulation within the dDepartment's region within which it is published. The administrative regions of the department are identified on Figure 2 in APPENDIX C (located at the end of this chapter). The Upon request, the Department will supply the names of newspapers used for statewide publication are available from any department office. (3-18-22)()

Formatted: Font: Bold

~~b.~~ Applications for permit which have been advertised. (3-18-22)

~~i. Notice of applications for permit for water from the Snake River between Swan Falls Dam and Milner Dam or surface and groundwater tributaries to that reach of Snake River which were advertised prior to July 1, 1985 and have been held without final action by the department due to the Swan Falls controversy shall be readvertised by the Director in accordance with Subsection 040.02.a. as appropriate to allow opportunity for protests to be entered with respect to the public interest criteria of Section 42-203C(2), Idaho Code. (3-18-22)~~

~~ii. Applications for permit from the Snake River or surface and groundwater sources upstream from Milner Dam which have been held without action due to the Swan Falls controversy may be processed without readvertisement. (3-18-22)~~

~~iii. The applicant shall pay the readvertisement fee provided in Section 42-221F, Idaho Code, prior to the readvertisement. (3-18-22)~~

~~iv. Failure to pay the readvertising fee within thirty (30) days after the applicant is notified to do so is cause for the Director to void the application. (3-18-22)~~

~~c. Notice of existing permits. (3-18-22)~~

~~i. Existing permits appropriating water held in trust by the state of Idaho issued prior to July 1, 1985, unless exempted by Subsection 040.02.c.ii. shall be subject to the review requirements of Section 42-203D, Idaho Code, and shall be readvertised in accordance with Subsection 040.02.a. as appropriate. The review is limited to the criteria described in Section 42-203C(2), Idaho Code. (3-18-22)~~

~~ii. Permits exempt from the provisions of Section 42-203D, Idaho Code, include: (3-18-22)~~

~~(1) Permits appropriating water not held in trust by the state of Idaho; (3-18-22)~~

~~(2) Permits for DCMI uses, stockwater uses and other essentially non-consumptive uses as determined by the Director; and (3-18-22)~~

~~(3) Permits for which an acceptable proof of beneficial use submittal was received by the department prior to July 1, 1985, or permits for which an acceptable proof of beneficial use was submitted after July 1, 1985, if evidence satisfactory to the Director has been received to show that the permit was fully developed prior to July 1, 1985 to the extent claimed on the proof of beneficial use. (3-18-22)~~

~~iii. Holders of permits subject to the review requirement of Section 42-203D, Idaho Code, shall pay in advance, upon the request of the Director, the readvertising fee required by Section 42-221F, Idaho Code. (3-18-22)~~

~~iv. Failure to pay the readvertising fee within thirty (30) days after the applicant is notified to do so is cause for the Director to cancel the permit. (3-18-22)~~

~~c. The Director will make an application accepted for filing available on the Department's website in accordance with Section 42-203A(3), Idaho Code. ()~~

~~d. Advertisement in the newspaper in accordance with Section 42-203A(2), Idaho Code constitutes the official notice of the application. ()~~

~~e. If the Department determines that an application amended after advertisement requires re-advertisement, the applicant must file the amended application with the re-advertising fee prescribed in Section 42-221F, Idaho Code. ()~~

~~f. The Director may deny approval of an application filed for diversion of ground water in a designated critical ground water area without advertisement of the application. ()~~

03. Protests, Intervention, Hearings, and Appeals.

(3-18-22)

a. ~~Protests.~~ (3-18-22)

~~i. Protests against the approval of an application for permit or against a permit being reprocessed shall comply. Section 42-203A, Idaho Code governs protests against approval of an application. The Department will process any protest in accordance with the requirements for pleadings as described in the department's adopted IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources."~~
(3-18-22)()

~~ii. Protests against the approval of an application for permit or against a permit being reprocessed will only be considered if received by the department after receipt of the application by the department and prior to the expiration of the protest period announced in the advertisement unless the protestant successfully intervenes in the proceeding.~~ (3-18-22)

~~iii. General statements of protest (blanket protests) against appropriations for a particular class of use or from a particular source of water will not be considered as valid protests by the Director.~~ (3-18-22)

~~b. Intervention. Requests to intervene in a proceeding pending before the department shall comply with the Department's adopted Rules of Procedure.~~ (3-18-22)

~~c. Hearings. Hearings will be scheduled and held in accordance with the department's adopted Rules of Procedure.~~ (3-18-22)

~~d. Appeals. Any final decision of the Director may be appealed in accordance with Section 42-1701A, Idaho Code.~~ (3-18-22)

~~b. The Director will not accept a protest or petition to intervene unless the protest or petition to intervene is filed with the statutory filing fee prescribed in Section 42-221L, Idaho Code.~~ ()

Formatted: Font: Bold

~~c. If a single protest names more than one individual and does not identify a representative, the Director will consider the first person listed the spokesperson and primary contact for service of documents for the group of individuals named on the protest.~~ ()

Formatted: Font: Bold

~~d. The Director will not consider general statements of protest (blanket protests) against applications for a particular class of use or from a particular source of water valid protests.~~ ()

Formatted: Font: Bold

04. Burden of Proof.

(3-18-22)

a. Burden of proof is divided into two (2) parts: first, the burden of ~~coming forward with~~ producing evidence to present a prima facie case, and second, the ~~ultimate~~ burden of persuasion. (3-18-22)()

b. The burden of ~~coming forward with~~ producing evidence is divided between the applicant and the protestant as follows:
(3-18-22)()

i. The applicant ~~shall bear~~ has the initial burden of ~~coming forward with~~ producing evidence for the evaluation of ~~the criteria (a) through (d) of in Sections 42-203A(5)(a) through (d), Idaho Code;~~ (3-18-22)()

ii. The applicant ~~shall bear~~ has the initial burden of ~~coming forward with~~ producing evidence of which the applicant is knowledgeable or reasonably can be expected to be knowledgeable for the evaluation of ~~the criteria in Sections 42-203A(5)(e) through (g), Idaho Code, as to any factor affecting local public interest of which he is knowledgeable or reasonably can be expected to be knowledgeable. The protestant shall bear~~ has the initial burden of ~~coming forward with~~ producing evidence of which the protestant can reasonably be expected to be more cognizant than the applicant for those factors relevant to ~~the evaluation of the criteria in Sections 42-203A(5)(e) through (g), Idaho Code, of which the protestant can reasonably be expected to be more cognizant than~~

the applicant. (3-18-22)()

iii. The protestant ~~shall bear~~ has the initial burden of ~~coming forward with~~ producing evidence for the evaluation of the public interest criteria of Section 42-203C(2), Idaho Code, and ~~of~~ demonstrating a significant reduction, except that the applicant ~~shall provide details~~ has the burden of producing evidence of the proposed project design, construction, and operation of the project, and directly associated operations to allow the Director to evaluate the project impact of the project to be evaluated. (3-18-22)()

c. The applicant has the ~~ultimate~~ burden of persuasion for the criteria of Section 42-203A, Idaho Code, and the protestant has the ~~ultimate~~ burden of persuasion for the criteria of Section 42-203C, Idaho Code. (3-18-22)()

d. For an unprotested application ~~s or permits to be reprocessed~~, the Director will evaluate the application, information ~~submitted filed~~ pursuant to Subsection 040.05.e., and information in the files and records of the ~~d~~Department, ~~and the results of any studies the department may conduct~~ to determine compliance with ~~the~~ appropriate Sections 42-203A(5) and 42-203C(2), Idaho Code criteria, as appropriate. (3-18-22)()

~~e. In protested matters the Director will take official notice of information as described in the department's adopted Rules of Procedure, and will, prior to considering, circulate to the parties information from department studies and field examinations concerning the protested application or permit being reprocessed, if such information has not otherwise been made a part of the hearing record.~~ (3-18-22)

05. Additional Information Requirements. (3-18-22)

a. ~~For unprotested applications and permits being reprocessed, The Director may require the applicant to file any of the additional information required by described in Subsection Paragraph 040.05.ee. or 040.05.f. if the official record for the application does not contain sufficient information to evaluate the applicable criteria in Section 42-203A(5) or 42-203C(2), Idaho Code. shall be submitted within thirty (30) days after the The Director notifies will specify the additional information required in the information request to the applicant that the application or permit is being reviewed for decision. The Director may extend the time within which to submit the information upon request by the applicant and upon a showing of good cause. Failure to submit the required information within the time period allowed will be cause for the Director to void an application or to advance the priority of a permit being reprocessed by the number of days that the information submittal is late. The Director will provide opportunity for hearing as provided in Section 42-1701A, Idaho Code.~~ ()

b. ~~Unless the Director determines otherwise, information described in Paragraph 040.05.e. or 040.05.f. is not required for:~~ (3-18-22)()

i. ~~An application that seeks to appropriate five (5) cfs or less, or store five hundred (500) af or less of unappropriated water.~~ ()

ii. ~~An application that seeks to use water from a source in the Swan Falls trust water area to irrigate two hundred (200) acres or less or any other use that the Director determines will reduce the flow of the Snake River measured at the Murphy Gage by two (2) af per day or less.~~ ()

c. ~~Unless the Director determines otherwise, the Director will request information described in Paragraph 040.05.f. for an application that seeks the use of water from a source in the Swan Falls trust water area for irrigation of more than two hundred (200) acres or any other use that the Director determines will reduce the flow of the Snake River measured at the Murphy Gage by more than two (2) af per day.~~ ()

bd. ~~For protested applications or protested permits being reprocessed, the information required by Subsection 040.05.e. may be requested by the Director to be submitted Unless the Director extends the time for filing additional information, the applicant must file the additional information within thirty (30) days after notification by the Director, may be made a part of the record of the hearing held to consider the protest, or may be made available in accordance with any pre-hearing discovery procedures notifies the applicant of the additional information~~

Formatted: Font: Bold

Formatted: Font: Bold

requirements. () Failure to submit

i. The Director will only grant an extension of time to file the required additional information if the applicant files a written request showing good cause. ()

ii. If the required additional information is not filed within the time period allowed will be cause for the Director to may void an the application or to advance the application priority of a permit being reprocessed date by the number of days that the information submittal is late. (3-18-22)()

ee. The following For purposes of evaluating the criteria in Section 42-203A(5), Idaho Code, the Director may request additional information shall be submitted for applications to appropriate unappropriated water or trust water and for permits being reprocessed for trust water. The additional information submittal requirements of this rule are waived for filings which seek to appropriate five (5) cfs or less or storage of five hundred acre feet (500 AF) or less and for filings seeking reallocation of trust water which the Director determines will reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) acre feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. However, the Director may specifically request submittal of any of the following information for any filing, as he determines necessary. Information relative to the effect on existing water rights, Section 42-203A(5)(a), Idaho Code, shall be submitted as follows, including but not limited to the following: (3-18-22)()

i. For applications appropriating springs or surface streams with five (5) or fewer existing users, either the identification number, or the name and address of the user, and the location of the point of diversion and nature of use for each existing water right shall be submitted. (3-18-22)

ii. For applications appropriating groundwater, a plat shall be submitted locating the proposed well relative to all existing wells and springs and permitted wells within a one-half mile radius of the proposed well. (3-18-22)

iii. Information shall be submitted concerning any Project design, construction, or operation techniques which, or mitigation measures that the applicant will be employed to eliminate or reduce the impact on other water rights. (3-18-22)()

d. Information relative to sufficiency of water supply, Section 42-203A(5)(b), Idaho Code, shall be submitted as follows: (3-18-22)

ii. Information shall be submitted on the The proposed project water requirements of the proposed project, including, but not limited to, the required diversion rate during the peak use period and the average use period, the volume to be diverted per year, the period of year that when water is required, and the volume of water that will be consumptively used per year. (3-18-22)()

iii. Information shall be submitted on the The quantity of water available from the source applied for, including, but not limited to, information concerning the flow rates for surface water sources available during periods of peak and average project water demand, information concerning the properties of the aquifers that from which water is to be taken from for ground water sources, and information on other sources of supply that may be used to supplement the applied for water source proposed in the application. (3-18-22)()

e. Information relative to good faith, delay, or speculative purposes of the applicant, Section 42-203A(5)(c), Idaho Code, shall be submitted as follows: (3-18-22)

iv. The applicant shall submit copies of deeds, leases, easements or applications for rights of way from federal or state agencies Evidence documenting a possessory interest in the lands necessary for all project facilities and the place of use or if. If such interest can be obtained by eminent domain proceedings, the applicant must show submit evidence that the applicant is taking appropriate actions are being taken to obtain the interest. Applicants for hydropower uses shall also submit information required to demonstrate ()

v. For hydropower use, information that demonstrates compliance with Sections 42-205 and 42-206,

Idaho Code. _____ (3-18-22)()

~~iv.~~ ~~The applicant shall submit copies of a~~ Applications for other needed permits, licenses, and approvals, ~~and, The applicant~~ must keep the ~~d~~Department apprised of the status of the applications and any subsequent approvals or denials. _____ (3-18-22)()

~~f.~~ Information Relative to Financial Resources, Section 42-203A(5)(d), Idaho Code, shall be submitted as follows: _____ (3-18-22)

~~vii.~~ The applicant shall submit a current financial statement certified to show the accuracy of the information contained therein, or a financial commitment letter along with the financial statement of the lender or other evidence ~~Evidence~~ to show that it is reasonably probable that financing will be available to appropriate the water and apply it to the beneficial use proposed. _____ (3-18-22)()

~~viii.~~ The applicant shall submit ~~p~~Plans and specifications ~~along with, and~~ estimated construction costs for the project works. ~~The plans shall be~~ definite enough to allow for determination of project impacts and implications. _____ (3-18-22)()

~~gix.~~ Information Relative to Conflict with the Local Public Interest, Section 42-203A(5)(e), Idaho Code, shall be submitted as follows: The applicant shall seek comment and shall submit all ~~l~~Letters of comment on the effects of the construction and operation of the proposed project ~~construction and operation effects~~ from the governing body of the city ~~and/or, county and, or~~ tribal reservation within which the point of diversion and place of use are located; the Idaho Department of Fish and Game, the Idaho Department of Environmental Quality; and any irrigation district or, canal company, or similar water delivery entity within which the proposed project is located, and from other people or entities in the local area who may be affected by the proposed water use, as determined by the Director. _____ (3-18-22)()

~~x.~~ Design, construction, operation techniques, or mechanical equipment that will be employed to achieve efficiency in conveyance or use of water and to minimize waste. _____ ()

~~hf.~~ The following information Relative to the Public Interest Criteria ~~For purposes of evaluating the criteria~~ of Section 42-203C(2), Idaho Code, shall be submitted by an applicant seeking reallocation of trust water for a project which the Director determines will reduce the flow of the Snake River by more than two (2) acre-feet per day. For filings proposing irrigation as a purpose of use, the additional information is required if more than two hundred (200) acres will be irrigated. ~~The~~ the Director may request any or all of additional information, including but not limited to the following information for any filing seeking the reallocation of trust water.: _____ (3-18-22)()

i. A project design and estimate of ~~development cost of development shall be submitted that is definite enough to evaluate the project's implications under Subsection 045.03.~~ For ~~an~~ applications ~~that proposes~~ appropriating more than twenty-five (25) cfs, or ten thousand (10,000) ~~AF~~ ~~af~~ of storage, or generating more than five (5) megawatts of power, the information ~~shall must~~ be prepared and submitted by a qualified engineer licensed under the provisions of Chapter 12, Title 54, Idaho Code, unless waived by the Director. ~~The design shall be definite enough to reflect the project's impacts and implications as required in subsequent rules.~~ _____ (3-18-22)()

ii. ~~If the project proposes development for~~ ~~For an application that proposes~~ irrigation purposes, information shall be submitted on use, the crop rotation, including ~~aereages~~ acres under each crop type, for newly developed lands ~~when newly developed.~~ _____ (3-18-22)()

iii. Information shall be submitted concerning the ~~The~~ number and kinds of jobs ~~that will be~~ created or eliminated as a direct result of project development including both the ~~project~~ construction and operating phases ~~of the project.~~ If jobs are seasonal, ~~include~~ the ~~estimated~~ number of months per year of employment ~~shall be submitted.~~ _____ (3-18-22)()

iv. For ~~an~~ applications ~~or permits being reprocessed for~~ ~~that proposes appropriating~~ more than twenty-five (25) cfs, or more than ten thousand (10,000) ~~AF~~ ~~af~~ of storage, or ~~generating~~ more than five (5) megawatts of

Formatted: Font: Not Bold

~~power, information shall be submitted concerning~~ the changes to community services ~~that will be~~ required during the ~~project~~ construction and operation phases ~~of the project~~ including, but not limited to, changes to schools, roads, housing, public utilities, and public health and safety facilities, if any. ~~(3-18-22)()~~

v. ~~Information shall be submitted concerning the~~ The source of energy for diverting and using water for the project, the estimated instantaneous demand and total amount of energy that will be used, the efficiency of use, and energy conservation methods. ~~(3-18-22)()~~

vi. ~~Information shall be submitted concerning the~~ The location, amount, and quality of return flow water, and any water conservation features of the ~~proposed~~ project. ~~(3-18-22)()~~

vii. If the project proposes irrigation ~~as a use, information shall be submitted concerning~~ the kinship, if any, of the operator of the land to be irrigated by the project to the applicant; the location and acreage of other irrigated lands owned, leased, or rented by the applicant; ~~the names, addresses and number of shares held by each shareholder if the applicant is a corporation, evidence of tax-exempt status if a corporation is so claiming, a soil survey prepared in accordance with the U.S. Soil Natural Resources Conservation Service irrigatable land classification system, and a schedule for bringing into production the project lands; the name, address, and number of shares held by each shareholder if the applicant is a corporation; and evidence of tax-exempt status if the applicant is a corporation so claiming.~~ ~~(3-18-22)()~~

041. -- 044. (RESERVED)

045. EVALUATION CRITERIA ~~(RULE 45)~~.

01. Criteria for ~~Evaluating All Applications to Appropriate Water~~. The Director will use the following criteria in evaluating whether an application to appropriate ~~unappropriated water or trust~~ water should be approved, denied, approved for a smaller amount of water, or approved with conditions. ~~(3-18-22)()~~

a. ~~Criteria for determining whether the proposed use will reduce the quantity of water under existing water rights. A proposed use will be determined to reduce the quantity of water under an existing water right (i.e., injure another water right) if Reduction of water available under existing water rights (injury) criteria:~~ ~~(3-18-22)()~~

i. ~~The Whether the~~ amount of water available under an existing water right will be reduced below the amount ~~recorded~~ authorized by permit, license, decree, or valid claim or the historical amount beneficially used by the water right holder ~~under of such recorded rights permit, license, decree, or valid claim~~, whichever is less. ~~(3-18-22)()~~

ii. ~~The Whether the~~ holder of an existing water right will be forced to an unreasonable effort or expense to divert ~~his water for an~~ existing water right. ~~Protection of existing groundwater rights are subject to The~~ reasonable pumping level provisions of Section 42-226, Idaho Code; ~~or govern protection of existing ground water rights.~~ ~~(3-18-22)()~~

iii. ~~The Whether the~~ quality of the water available ~~to the holder of an existing water right is would be~~ made unusable ~~for the purposes of the existing user's water right, and the water cannot could not~~ be restored to usable quality without unreasonable effort or expense. ~~(3-18-22)()~~

iv. ~~An Whether the~~ application that would otherwise be denied because of injury to another water right may be approved upon conditions ~~which will that~~ mitigate losses of water ~~to the holder of for~~ an existing water right, as determined by the Director. ~~(3-18-22)~~

~~v. The This~~ provisions of Subsection 045.01.a.v. ~~are is~~ not intended to require compensation or mitigation for loss of flow to holders of a subordinated hydropower water rights ~~or those from which trust water is reallocated a water right held in trust.~~ ~~(3-18-22)()~~

b. ~~Criteria for determining whether the Sufficiency of water supply is insufficient for the proposed use~~ criteria. The water supply will be determined ~~to be~~ insufficient for the proposed use if water is not available for an adequate time interval in quantities sufficient ~~to make the project economically feasible (direct benefits to applicant must exceed direct costs to applicant), unless there are noneconomic factors that justify application approval. In assessing such noneconomic factors, the Director will also consider the impact on other water rights if the project is abandoned during construction or after completion, the impact on public resource values, and the cost to local, state and federal governments of such an abandonment~~ accomplish the proposed beneficial use.
(3-18-22)()

c. ~~Criteria for determining whether the application is made in good~~ Good faith criteria. The ~~criteria requiring that the Director evaluate~~ evaluation whether an application is made in good faith or ~~whether it is~~ made for delay or speculative purposes requires an analysis of the ~~applicant's intentions of the applicant with respect to the filing and diligent pursuit of follow application requirements and diligently pursue permit development. The judgment of another person's intent can only be based upon the substantive actions that encompass the proposed project.~~ Speculation ~~for the purpose of~~ this rule is an intention to obtain a water right permit ~~to appropriate water~~ without the intention of applying the water to beneficial use with reasonable diligence. Speculation does not prevent an applicant from subsequently selling the ~~developed~~ project for a profit or from making a profit from the use of the water. An application will be found ~~to have been~~ made in good faith if it meets the following criteria: (3-18-22)()

i. The applicant ~~shall have~~ has legal access to the property necessary to construct and operate the proposed project, ~~has or~~ the authority to exercise eminent domain authority to obtain such access, ~~or in~~. In the instance of a project diverting water from or conveying water across land in state or federal ownership, ~~has filed all applications for there must be evidence that the applicant is in the process of obtaining a right-of-way. Approval of applications involving Desert Land Entry or Carey Act filings will not be issued until the United States Department of Interior, Bureau of Land Management has issued a notice classifying the lands suitable for entry; and~~ (3-18-22)()

ii. The applicant is in the process of obtaining other permits needed to construct and operate the project; and, (3-18-22)()

iii. There are no obvious impediments that prevent the successful completion of the project. (3-18-22)()

d. ~~Criteria for determining whether the applicant has sufficient f~~ Financial resources to complete the project criteria: (3-18-22)()

i. ~~A~~ The Director will find an applicant ~~will be found to have~~ has sufficient financial resources upon a showing that it is reasonably probable that funding is or will be available for project construction ~~or upon a financial commitment letter acceptable to the Director. This showing is required as described in Subsection 040.05.c. or at the time the hearing provided by Subsection 040.05.c. is conducted.~~ (3-18-22)()

ii. ~~A~~ The Director will find a governmental entity ~~will be determined to have satisfied this requirement~~ has sufficient financial resources if it has the taxing, bonding, or contracting authority necessary to raise the funds needed to commence and pursue project construction in accordance with the construction schedule. (3-18-22)()

e. ~~Criteria for determining whether the project conflicts with the l~~ Local public interest criteria. The Director will consider the following, ~~along with and~~ any other appropriate factors ~~he finds to be appropriate, in determining whether the project will conflict with the local public interest:~~ (3-18-22)()

i. The effect the project will have on the economy of the local area affected by the proposed use as determined by ~~the short and long term~~ employment opportunities, ~~both~~ short and long term, revenue changes to various sectors of the economy, ~~short and long term,~~ and the stability of revenue and employment gains; (3-18-22)()

ii. The effect the project will have on natural resources, including but not limited to recreation, fish, and wildlife ~~resources, that are of interest to people~~ in the ~~local~~ area directly affected by the proposed water use; and (3-18-22)()

iii. ~~An application which the The Director determines will deny an application that conflicts with the local public interest will be denied unless the Director determines that an over-riding state or national need exists for the project or that~~ the project can be approved with conditions to resolve the conflict with the local public interest. (3-18-22)()

~~f.~~ Conservation of water resources within the state of Idaho criteria: ()

Formatted: Font: Bold

i. Whether a diversion rate greater than 0.02 cfs per acre is necessary for irrigation use. ()

ii. Whether the design, construction, operation techniques, or mechanical equipment will be employed to achieve a water use efficiency consistent with contemporary engineering or industry standards. ()

iii. Whether a proposed storage facility will exceed a seepage rate of 0.2 feet per day. This criterion does not apply if the proposed storage facility will be used as an infiltration basin for ground water recharge, an excavated pond filled by intercepting ground water, or an impoundment for irrigation use not exceeding five (5) af of stored water per acre of irrigation. ()

~~g.~~ Project effect on the local economy or local area of the watershed where the water originates criteria: ()

Formatted: Font: Bold

i. In the case where the place of use is outside the watershed or local area where the source of water originates, CONTENT TO BE NEGOTIATED IN NEGOTIATED RULEMAKING PROCESS. ()

02. Criteria for Evaluating Whether a Proposed Use of an Application in the Swan Falls Trust Water Area Will Cause a Significant Reduction. ~~Reference: Section 42-203C(1), Idaho Code and Subsection 025.02.b. For purposes of reallocating trust water made available by the Snake River water rights agreement, an The Director will find an application for permit or a permit being reprocessed, to appropriate water from the Swan Falls trust water area will cause a significant reduction when the propose use, individually or cumulatively with existing uses and other uses reasonably likely to exist within twelve months of the proposed use, would significantly reduce the amount of water available to a water right held in trust. The Director will presume an application to appropriate water from the Swan Falls trust water area will be presumed to not cause a significant reduction if the Director determines that it eomplies with meets both the individual and cumulative tests for evaluating significant reduction as provided in-Subsections Paragraphs 045.02.a. and 045.02.b.~~ (3-18-22)()

a. Individual test ~~for evaluating significant reduction~~. A proposed use ~~will be presumed to not cause a significant reduction meets the individual test~~ if, when fully developed and its impact is fully felt, the use will individually reduce the flow of the Snake River measured at Murphy Gauge by not more than two (2) ~~acre-feet af~~ per day. ~~A The Director will presume an irrigation project of two hundred (200) acres or less located anywhere in the Snake River Basin above Murphy Gauge proposing to use diverting from a source located in the Swan Falls trust water is presumed to area will~~ not reduce the flow at Murphy Gauge by more than two (2) ~~acre-feet af~~ per day. The presumption of this ~~section paragraph~~ is not applicable to ~~an applications or permits to be reprocessed~~ which the Director determines to be part of a larger development. (3-18-22)()

b. Cumulative test ~~for evaluating significant reduction~~. A proposed use ~~will be presumed to not cause a significant reduction, meets the cumulative test~~ if the use, when fully developed and its impact is fully felt and when considered cumulatively with other existing uses and other uses reasonably likely to exist within twelve (12) months of the proposed use, will not deplete the flow of Snake River measured at Murphy Gauge by more than: (3-18-22)()

i. Forty thousand (40,000) ~~acre-feet af~~ per calendar year when considered with all other ~~uses approved for development of appropriations from the Swan Falls~~ trust water ~~area approved~~ during that calendar year; (3-18-22)()

ii. Forty thousand (40,000) ~~acre-feet af~~ per calendar year using a four (4) year moving average when

considered with all other ~~uses approved for development of~~ appropriations from the Swan Falls trust water ~~area approved~~ during that four (4) year period; and _____

(3-18-22)(____)

iii. Twenty thousand (20,000) ~~acre-feet of~~ per calendar year from ~~filings approved for reallocation of applications within the Swan Falls trust water which area that~~ meet the criteria of ~~Subsection Paragraph~~ 045.02.a. (3-18-22)(____)

c. The Director will determine on a case-by-case basis from available information whether ~~a permit to be reprocessed or~~ an application ~~for to appropriate water from the Swan Falls trust water which exceeds the flow depletion limits of Subsection 045.02 area that does not meet the test in Paragraph 045.02.a. or Paragraph 045.02.b.,~~ or one which meets ~~the flow depletion limits both tests~~ but has been protested, will cause a significant reduction. In making this determination, the Director will consider: _____

(3-18-22)(____)

i. The amount of the reduction in hydropower generation that the proposed use will cause individually and cumulatively with other uses expected to be developed within twelve (12) months of the proposed use as compared to the existing hydropower generation output of the affected facility or facilities. _____

(3-18-22)

ii. The relative importance of the affected hydropower facility or facilities to other sources of electrical power generation available to the holder of the facility or facilities. _____

(3-18-22)

iii. The timing of the reduction in hydropower generation both on an annual basis and on a long-term basis considering the lag time between the beginning of diversion by the proposed use and the resulting reduction in hydropower generation. _____

(3-18-22)

iv. The effect of the reduction in hydropower generation on the unit cost of hydropower from the facility or facilities and the average cost of electrical power offered by the ~~facility holder of the facility.~~ _____

(3-18-22)(____)

v. The terms of contracts, mortgages, or regulatory permits and licenses ~~which that~~ require the ~~hydropower generation facility holder of the hydropower generation facility~~ to retain the capability to produce hydroelectric power at a specific level. _____

(3-18-22)(____)

d. Other provisions of these rules notwithstanding, ~~the Director will presume an applications or permits to be reprocessed~~ proposing a direct diversion of water for irrigation purposes from the Snake River between Milner Dam and Swan Falls Dam or from tributary springs in this reach ~~are presumed to~~ causes a significant reduction. _____

(3-18-22)(____)

e. Other provisions of these rules notwithstanding, ~~the Director will presume an applications or permits to be reprocessed~~ for ~~DCMI purposes are presumed to~~ domestic, commercial, municipal, or industrial use does not cause a significant reduction if the total proposed use does not reduce the flow at the Murphy Gage by more than two (2) af per day. _____

(3-18-22)(____)

03. Criteria for Evaluating Public Interest under Section 42-203C(2), Idaho Code. If the Director determines that ~~a proposed use of an application for an appropriation from the Swan Falls trust water held by the state pursuant to Section 42-203B(5), Idaho Code, area~~ will cause a significant reduction, the Director will consider the criteria of Section 42-203C(2), Idaho Code, ~~before acting on approving or denying the application or permit being reprocessed. The Director shall consider and balance the relative benefits and detriments for each factor required to be weighed under Section 42-203C(2), Idaho Code, to determine whether a proposed reduction of the amount of water available for power production serves the greater public interest. The Director shall evaluate whether the proposed use sought in the permit being reprocessed or the application will provide the greater benefit to the people of the state of Idaho when balanced against other uses for the same water resource. In evaluating the public interest criteria in Section 42-203C, Idaho Code, the Director will use consider~~ the following guidelines: _____

(3-18-22)(____)

a. ~~The Director will consider the~~ potential benefits, both direct and indirect, ~~and that~~ the proposed use would provide to the state and local economy. The economic appraisal ~~shall~~ will be based upon generally accepted

Formatted

Formatted

economic analysis procedures which uniformly evaluate the following factors within the state of Idaho and the county or counties directly affected by the project:

~~(3-18-22)()~~

- i. Direct project benefits. (3-18-22)
- ii. Indirect benefits including net revenues to the processing, transportation, supply, service, and government sectors of the economy. (3-18-22)
- iii. Direct project costs, to include the opportunity cost of previous land use. (3-18-22)
- iv. Indirect project costs, including verifiable costs to government in net lost revenue and increased regulation costs, verifiable reductions in net revenue resulting from losses to other existing instream uses, and the increased cost of replacing reduced hydropower generation from unsubordinated hydropower generating facilities. (3-18-22)

b. The ~~Director will consider the impact the~~ proposed use ~~would have~~ impact upon the electric utility rates in the state of Idaho, and the availability, foreseeability, and cost of alternative energy sources to ameliorate such impact. These evaluations will include the following considerations: ~~(3-18-22)()~~

i. Projections of electrical supply and demand for Idaho and the Pacific Northwest made by the Bonneville Power Administration and the Northwest Power Planning Council and information available from the Idaho Public Utilities Commission or from the electric utility from whose water right ~~is held in trust~~ ~~water is being~~ ~~reallocated pursuant to Section 42-203B(5), Idaho Code.~~ ~~(3-18-22)()~~

ii. The long-term reliability of the substitute source and the cost of alternatives including the resulting impact on electrical rates. (3-18-22)

c. ~~The Director will consider whether~~ Whether the proposed use will promote the family farming tradition in the state of Idaho. For purposes of this evaluation, the Director will ~~use the following factors.~~ ~~(3-18-22)~~

~~d. If presume the application promotes the family farming tradition if~~ the total land to be irrigated by the applicant, including currently owned and leased irrigated land and land proposed to be irrigated in the application and other applications and permits of the applicant, do not exceed nine hundred sixty (960) acres, ~~the application will be presumed to promote the family farming tradition.~~ ~~(3-18-22)~~

~~e. If the requirement of Subsection 045.03.e.i. is presumption above does not met apply,~~ the Director will consider ~~the extent whether~~ the applicant conforms to proposed use has the following characteristics: ~~(3-18-22)()~~

i. The farming operation developed or expanded as a result of the application is operated by the applicant or a member of ~~his~~ the applicant's family (spouse, parents or grandparents, lineal descendants, including those that are adopted, lineal descendants of parents; and spouse of lineal descendants); ~~(3-18-22)()~~

ii. In the event the application is filed in the name of a partnership, one or more of the partners ~~shall~~ operate the farming operation; and ~~(3-18-22)()~~

iii. If the application is in the name of a corporation, the number of stockholders does not exceed fifteen (15) persons, and one or more of the stockholders operates the farming operation unless the application is ~~submitted~~ filed by an irrigation district, drainage district, canal company or other ~~water~~ entity authorized to appropriate water for landowners within the district or for stockholders of the company all of whom ~~shall meet~~ satisfy the family farming criteria. ~~(3-18-22)()~~

~~fd. The Director Whether the proposed project will consider the promotion of~~ promote full economic and multiple use development of the water resources of the state of Idaho. ~~In this regard, the extent to which the project proposed complies with the following factors will be considered:~~ ~~(3-18-22)()~~

- i. Promotes~~ing~~ and conforms~~ing~~ with the adopted Idaho State Water Plan; (3-18-22)()
 - ii. Provides~~ing~~ for coordination of proposed and existing uses of water to maximize the beneficial use of available water supplies; (3-18-22)()
 - iii. Utilizes~~ing~~ technology economically available to enhance water and energy use efficiency; (3-18-22)()
 - iv. Provides~~ing~~ multiple uses of the water, including multipurpose storage; (3-18-22)()
 - v. Allows~~ing~~ opportunity for reuse of return flows; (3-18-22)()
 - vi. Preserves~~ing~~ or enhances~~ing~~ water quality, fish, wildlife, recreation, and aesthetic values; or (3-18-22)()
 - vii. Provides~~ing~~ supplemental water supplies for existing uses with inadequate supplies. (3-18-22)()
- ~~ge.~~ The Director will consider whether a proposed irrigation use, which includes irrigation, will conform to a staged development policy of up to twenty thousand (20,000) acres per year or eighty thousand (80,000) acres in any four (4) year period in the Snake River drainage above Murphy Gauge. In applying this these criteria, the Director will consider the following: (3-18-22)()
- i. For purposes of Paragraph 045.03.e., “aAbove the Murphy Gauge” means the reach of the Snake River and between Milner Dam and the Murphy Gauge, as well as any of its surface or ground water tributaries upstream from Murphy gauge which gauge is located on the Snake River approximately four (4) miles downstream from Swan Falls Dam from which trust water is to be reallocated tributary to that reach of the Snake River; (3-18-22)()
 - ii. Twenty thousand (20,000) acres per year or eighty thousand (80,000) acres per four (4) year period is a four (4) year moving average of Twenty thousand (20,000) acres per year of permits issued during a calendar year for irrigation development. If permits for development of less than twenty thousand (20,000) acres are issued in a year, additional development in excess of twenty thousand (20,000) acres can be permitted in succeeding years. Likewise, if more than twenty thousand (20,000) acres is permitted in one year (recognizing that a single large project could exceed twenty thousand (20,000) acres) the permitted development in succeeding years must be correspondingly less to maintain no greater than a twenty thousand (20,000) acres per year average for any four (4) year period; (3-18-22)()
 - iii. The criteria of Subsection Paragraph 045.03.ge. applies to multiple-use projects with irrigation as a principal purpose use. Projects for which use irrigation as is only an incidental purpose use, such as the land treatment of waste, shall are not be included within this policy; and (3-18-22)()
 - iv. AThe Director may approve an application determined by the Director to be otherwise approvable but found to exceed the acreage limitations of Paragraph 045.03.e., when considered with other applications approved for development, may be approved with conditions providing for prescribing the construction of project works and beneficial use of water to be commenced in a future year. (3-18-22)()
- hf. No single public interest criterion will be entitled to greater weight than any other public interest criterion. (3-18-22)
- ig. Until such time as the studies prescribed in Policy 32-I of The Director will presume an application that proposes to store surface water from the Snake River and surface tributaries upstream from the Murphy Gauge satisfy the public interest criteria of Section 42-203C(2), Idaho Code, if the proposed project is consistent with the Idaho State Water Plan are completed and accepted by the Idaho Water Resource Board, applications and permits

reprocessed which propose to divert water to surface storage from the Snake River and surface tributaries upstream from Murphy Gauging Station shall be presumed to satisfy the public interest criteria of Section 42-203C(2), Idaho Code. Applications or reprocessed permits which are approved prior to completion of the studies, will not be subject to additional reprocessing. (3-18-22)()

jh. Applications for permit The Director will presume an application for an appropriation from the Swan Falls trust water sources area filed prior to July 1, 1985, for projects for which with diversion and beneficial use was completed prior to October 1, 1984, are presumed to satisfy the public interest criteria of Section 42-203C(2), Idaho Code. (3-18-22)()

ki. AThe Director will presume applications or permits to be reprocessed proposing a direct diversion of water for irrigation purposes use from the reach of the Snake River between Milner Dam and Swan Falls Dam or from tributary springs in this that reach are presumed not to be in the public interest as defined by Section 42-203C, Idaho Code. Such proposals, are presumed to prevent the full economic and multiple use of water in the Snake River Basin and to adversely affect hydropower availability and electrical energy rates in the state of Idaho. (3-18-22)()

lj. PThe Director will presume proposed DCM domestic, commercial, municipal, or industrial uses which individually do not have a maximum consumptive use of more than two (2) acre-feet/ af per day are presumed to meet the public interest criteria of Section 42-203C(2), Idaho Code, unless protested. (3-18-22)()

046. -- 049. (RESERVED)

050. CONDITIONS OF APPROVAL (RULE 50).

01. Issuance of Permits with Conditions. The Director may issue a permits with conditions to insure ensure compliance with the provisions of Title 42, Chapter 2, Idaho Code, other statutory duties, the public interest, and efficient administration of water rights by priority dates, specifically to meet the criteria of Section 42-203A, Idaho Code, and to meet the requirements of Section 42-203C, Idaho Code, to the fullest extent possible, including conditions to promote efficient use and conservation of energy and water. (3-18-22)()

02. Requirements to Mitigate Impact of Flow Depletion. Permits to be reprocessed or applications approved to appropriate water from the main stem of the Snake River between Milner and Murphy gauging station for diversion to off-stream storage during the period November 1 to March 31 shall include requirements to mitigate, in accordance with the State Water Plan, the impact of flow depletions on downstream generation of hydropower. (3-18-22)

03. Applications and Existing Permits That Are Junior and Subordinate. Applications and existing permits approved for hydropower generation shall be junior and subordinate to all rights to the use of water, other than hydropower, within the state of Idaho that are initiated later in time than the priority of the application or existing hydropower permit. A subordinated permit shall not give rise to any right or claim against future rights to the use of water, other than hydropower, within the state of Idaho initiated later in time than the priority of the application or existing hydropower permit. A permit issued for hydropower purposes shall contain a term condition on the hydropower use in accordance with Section 42-203B(6), Idaho Code. (3-18-22)

04. Permanent Flow Measuring Device Requirement. Applications approved for on-stream storage reservoirs will, unless specifically waived by the Director, require permanent flow measuring devices both upstream and downstream from the reservoir. (3-18-22)

05. Well Spacing and Well Construction Requirements. Applications approved for diversion of groundwater may include conditions requiring well spacing and well construction requirements. (3-18-22)

06. Reprocessed Permits. Permits reprocessed pursuant to Section 42-203D, Idaho Code, may be cancelled, modified or conditioned by the Director to make the permit comply in every way with any permit that would be issued for the same purpose based upon a new application processed under these rules. (3-18-22)

07. Voiding Approval of Permit. Permits may be conditioned to authorize the Director to void the

approval of the permit if he determines that the applicant submitted false or misleading information on the application or supporting documents. (3-18-22)

~~08. Retention of Jurisdiction. The Director may condition permits to retain jurisdiction to insure compliance with the design, construction and operation provisions of the permit. (3-18-22)~~

~~09. Insuring Minimum Stream Flows and Prior Rights. The Director may condition permits to insure that established minimum stream flows and prior rights including prior rights reserved by federal law are not injured. (3-18-22)~~

~~10. Insuring Compliance with Water Quality Standards. The Director may condition permits to insure compliance with Idaho's water quality standards. (3-18-22)~~

~~11. Insuring Assignment of Interest. The Director may condition a permit issued for trust water to require that any amendment (Section 42-211, Idaho Code), transfer (Section 42-222, Idaho Code), or assignment of interest in the permit by any method whatsoever shall not result in the project failing to meet the public interest criteria of Section 42-203C, Idaho Code except, however, lenders obtaining title to the project through default will have a reasonable period of time, as determined by the Director, to meet such criteria or to convey the project to a person or entity that does meet the criteria. (3-18-22)~~

051. -- 054. (RESERVED)

055. MORATORIUM ~~(RULE 55).~~

01. ~~Applications for Permit or Undeveloped Permits.~~ (3-18-22)()

a. The Director may cease to approve applications ~~for permit or cancel or modify undeveloped permits for which the permit holder has not submitted proof of beneficial use~~ in a designated geographical area upon finding a need to: (3-18-22)()

i. Protect existing water rights; (3-18-22)

ii. ~~Insure~~ Ensure compliance with ~~the provisions of~~ Chapter 2, Title 42, Idaho Code; and (3-18-22)()

iii. Prevent reduction of flows below a minimum stream flow ~~which has been~~ established by the Director or the ~~BB~~ Board pursuant to applicable law. (3-18-22)()

b. Notice of the Director's action to cease application approval ~~or to cancel or modify undeveloped permits~~ will be by: (3-18-22)()

i. Summary Order served by certified mail upon the then existing affected applicants ~~or permit holders~~; and (3-18-22)()

ii. Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area affected. (3-18-22)

c. Objections to the Director's action ~~shall will~~ be considered under ~~the department's adopted IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources"~~ and applicable law. (3-18-22)()

~~02. Permits.~~ (3-18-22)

~~a. To the extent a permit has not been developed, the Director may cancel, or modify permits for which proof of beneficial use has not been submitted in a designated geographical area as an extension of Subsection 055.01. (3-18-22)~~

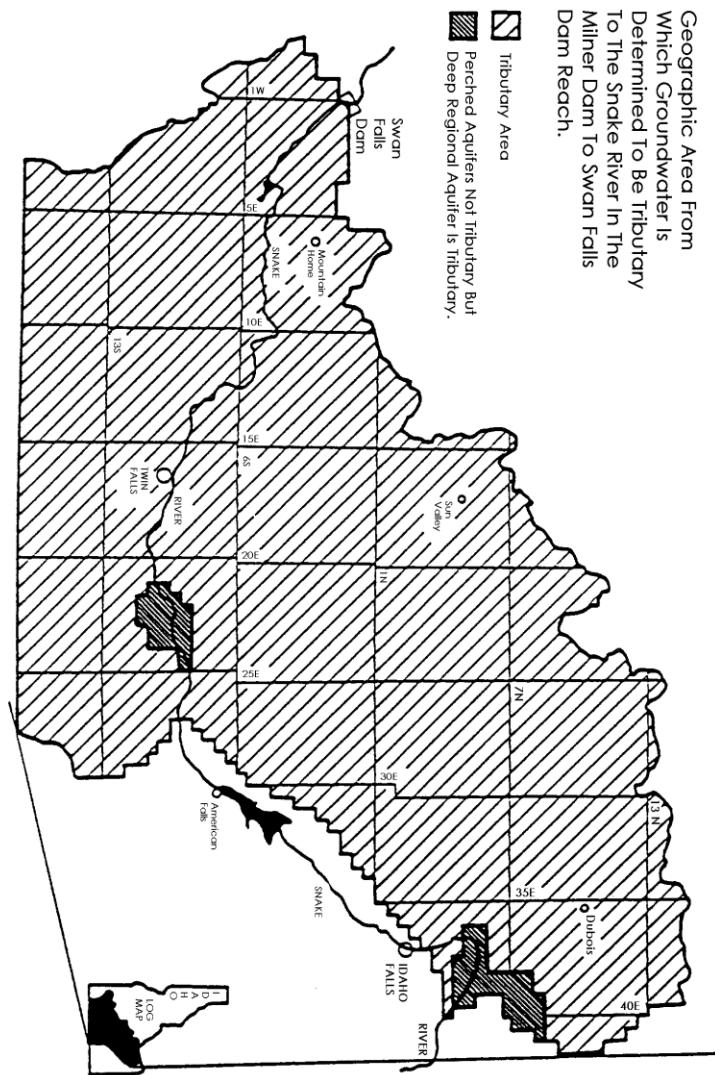

~~_____ b. _____ Notice of the Director's action to cancel or modify permits shall be by: _____ (3-18-22)~~

~~_____ i. _____ Summary Order served by certified mail upon the affected permit holders in the designated area. _____ (3-18-22)~~

~~_____ ii. _____ Publication of the order for three (3) consecutive weeks in a newspaper or newspapers of general circulation in the area. _____ (3-18-22)~~

~~_____ c. _____ Objections to the Director's action shall be considered under the department's adopted Rules of Procedure and applicable law. _____ (3-18-22)~~
