020. LICENSE APPLICABILITY OF LICENSING REQUIREMENTS (RULE 20). Licensing Requirements Wells to be Drilled by Licensed Drillers. A well shall only be drilled by a licensed driller, or an operator working under the responsible charge supervision of a licensed driller except that a property owner, who is not licensed, can construct a well on his property for his own use without the aid of powerdriven mechanical equipment. (7-1-21)T() Driller to Have Responsible Charge of Other Workers. A licensed driller shall have responsible charge of all others engaged in a well drilling operation. Operators to Have Permits. An individual assisting a licensed driller whose duties include operation of a drill rig or auxiliary equipment shall possess an operator's permit as provided in these rules. If the driller is not present at the well site at all times that drilling operations are being conducted, one or more of those operating the equipment in the driller's absence shall have a class II operator's permit. The driller shall provide adequate supervision of class II operators. An individual having a class I operator permit shall be supervised by a licensed driller or a class II operator at all times when operating the drill rig or auxiliary equipment Any person authorized to operate drilling equipment under the supervision of a licensed driller shall possess an operator's permit as provided in these rules. (7-1-21)T() Laborer Exempted. An individual whose duties at the drilling site do not include operation of the drill rig or auxiliary equipment at any time is not required to have either a driller's license or an operator's permit. Company to be Licensed. No company shall drill or contract to drill a well or wells unless the company has been issued a license and has employed a principal driller as described in accordance with these rules. $\frac{(7-1-21)T}{(}$ Drillers to Decommissioning (Abandon) Wells. Only licensed drillers and operators may decommission (abandon) wells, except that wells may be decommissioned (abandoned) by the owner after receiving a specific waiver from the Director. $\frac{(7-1-21)T}{(}$ 021. CONSTRUCTION AND USE OF HOLES THAT ARE NOT WELLS (RULE 21). 01. When a License Is Not Required. A person drilling a hole that does not meet the definition of a well does not need a driller's license or operator's permit. (7-1-21)T 02. Holes Not Defined as Wells. The following list describes the types of holes that are not wells for purposes of these rules: Holes with total depth less than eighteen (18) feet. b. Holes for collecting soil or rock samples, determining geologic properties, or mineral exploration or extraction, including gravel pits. e. Holes for oil and gas exploration for which a permit has been issued pursuant to Section 47 320, Idaho Code. d. Holes for constructing building foundations or de watering building or dam foundation excavations. e. Holes for the installation of standpipes or piezometers to monitor the saturation of dam

Section 000 Page 4 MWeaver_09242021

embankments or foundations or to measure uplift forces on buildings, dams and other structures. (7 1 21)T

03. Converting a Hole Not Constructed as a Well for Use as a Well. A hole that was not constructed as a well by or under the responsible charge of a driller, if subsequently converted to obtain water, to monitor water quantity or quality, or to dispose of water or other fluids, shall be reconstructed by a driller to comply

right or other approval if needed, and have the hole inspected and modified by a licensed driller as necessary to meet well construction standards. The driller shall file a driller's report for the well. 022021. -- 029. (RESERVED) 030. OBTAINING A DRILLER'S LICENSE FOR AN INDIVIDUAL DRILLER (RULE 30). Application Requirements Experience Requirements. An individual desiring a license shall file with the department a completed application on a form provided by the department accompanied by the following: (7-1-21)T() An applicant for a driller's license shall submit evidence to establish a minimum of twenty-four (24) months of drilling experience. Twelve (12) of the twenty-four (24) months drilling experience must have occurred within the five (5) year period immediately preceding the filing of the application. An applicant will be credited with one (1) month of drilling experience for each one hundred sixty (160) hours of employment as a driller or operator, or the equivalent, as determined by the director. Experience drilling monitoring wells, geothermal wells or other cased wells will be credited as experience by the Director if the equipment and drilling methods are applicable to water well construction. The application fee required by Section 42 238, Idaho Code. (7 1 21)T() b. Written documentation of drilling experience, compliance history, and the names and addresses of three (3) references to confirm the applicant's drilling experience. c. A list of all drill rigs used by or under the responsible charge of the applicant providing the make, d. The names and addresses of all licensed drillers and permitted operators that will work under the responsible charge of the applicant. Experience Requirements Application Requirements. An individual desiring a license shall file with the department a completed application on a form provided by the department accompanied by the following: $\frac{(7-1-21)T}{(}$ An applicant shall have a minimum of twenty four (24) months of drilling experience. An applicant will be credited with one (1) month of drilling experience for each one hundred sixty (160) hours of employment as a driller or operator, or the equivalent, as determined by the director. Experience drilling monitoring wells, geothermal wells or other cased wells will be credited as experience by the Director if the equipment and drilling methods are applicable to water well construction. The application fee required by Section 42-238, Idaho Code. An applicant for driller's license shall submit evidence to establish that the applicant, as an operator or driller, has successfully constructed a sufficient number of wells within the preceding twenty four (24) months to demonstrate competency. Evidence of this experience can be demonstrated by the submission of driller's reports bearing the applicant's signature, well reports upon which the driller having responsible charge attests that the applicant drilled the wells or other documentation acceptable to the director. Written documentation of drilling experience and compliance history. (7.1.21)T(Twelve (12) of the twenty four (24) months drilling experience must have occurred within the five (5) year period immediately preceding the filing of the application. (7 1 21)T Successful completion of classroom study in geology, well drilling, map reading, and other related subjects may be substituted for up to, but not exceeding, twelve (12) months of drilling experience. The director will determine the number of months of classroom study, up to twelve (12), to be credited as experience. (7.1.21)T() The names and addresses of up to three (3) references to confirm the applicant's drilling experience may be requested at the department's discretion.

Incomplete Application. If an application is incomplete, not properly signed, or does not include

01.

the information required by these rules, the department will advise the applicant in writing of the deficiency. If the deficiencies are not satisfied within ninety (90) days of sending the notice of the deficiency, the application will be void. The application fee is not refundable.

(7 1 21)T(____)

- **02. Issuance of License.** If the director, upon review of the application, determines that an applicant for license is qualified and the driller has subsequently taken and passed an examination, a notice will be sent to the applicant requesting a bond in an amount determined in accordance with Rule 60 be filed with the department. Upon receipt of a satisfactory bond, the director will issue a license to the applicant.

 (7-1-21)T(____)
- 03. Issuance of Operator's Permits. If the director determines that an applicant is qualified and has passed an examination, if required, the The department will mail a notice and operator's permit card to the principal driller on behalf of the applicant if the application is complete and the applicant meets the qualifications described in these rules.
- Operator's Permit. The Director may issue a license or operator's permit with specific conditions or limitations based on the applicant's experience and compliance history. The Director may refuse to issue or renew a driller's license permanently or for a designated period of time if the driller has previously constructed wells improperly or constructed a well without a valid driller's license. If the Director determines that the applicant is not qualified, the Director will deny the application. Notice of a denied application or a conditioned license or operator's permit will be given to the applicant in accordance with IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources."

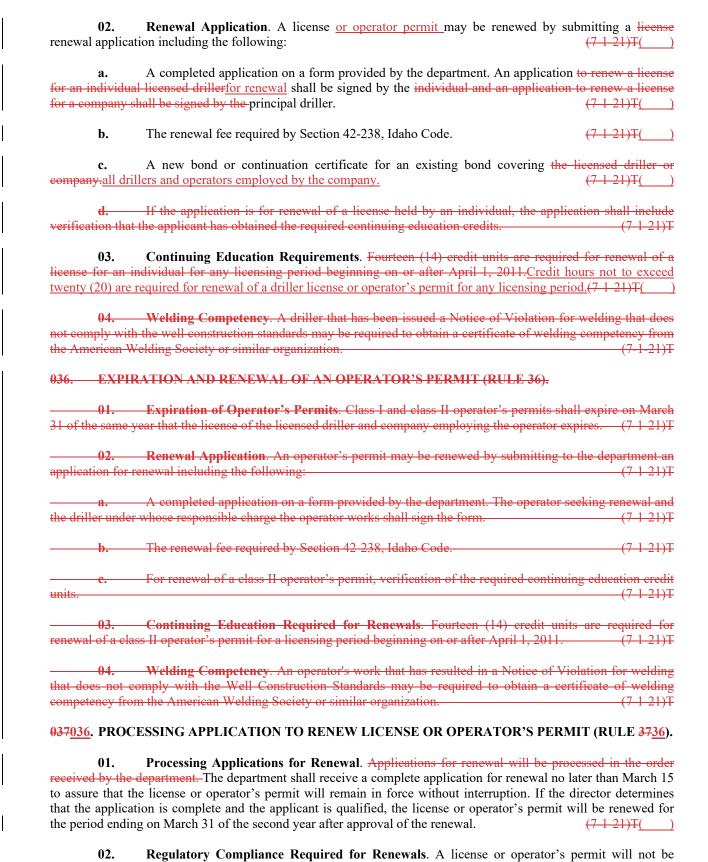

034. EXAMINATION PROCEDURES (RULE 34).

- **01. Written Examination**. Written examinations will be offered at department offices on the first Monday of each quarter. If the first Monday is a legal holiday, written examination will be offered on the first Tuesday. Re-examination may be taken at a regularly scheduled examination date during a following quarter and shall be scheduled with the department office originally testing the applicant.

 (7-1-21)T(____)
- **O2.** Verbal or Oral Examination. Successful passage of an orala verbal examination may satisfy all or a part of the written testing requirements under the following circumstances: (7-1-21)T(____)
- a. The applicant requests an orala verbal rather than a written examination and shows cause acceptable to the director why the examination should be oral verbal rather than written. Applicants desiring to take the examination orally verbally shall request that an orala verbal examination be scheduled allowing at least fifteen (15) days to set an examination date.
- **b.** The director determines that because of the applicant's compliance history, additional testing is needed to determine the applicant's qualifications. (7-1-21)T(
- 03. Examination Scoring. The applicant shall pass each section of the examination with a \underline{A} score of seventy percent (70%) or higher is a passing score. $(7.1.21)T(\underline{})$
- **04. Assistance Must Be Authorized**. The use of written materials, equipment equipment, or other individuals to assist an applicant during an examination is prohibited unless specifically authorized by the department. An applicant receiving unauthorized assistance during an examination may be disqualified and the application may be rejected. An application filed by a disqualified applicant will not be processed for a period of up to one (1) year from the time of disqualification. (7 1 21)T(____)
- 035. EXPIRATION AND RENEWAL OF <u>DRILLER</u> LICENSES AND <u>OPERATOR PERMITS</u> (RULE 35).
- **O1.** Expiration of Licenses and Permits. All <u>driller licenses and operator permits</u> expire at the end of the licensing period for which they are issued. The licensing period begins April 1 and ends March 31 of the second year following issuance.

 (7 1 21)T()

Section 000 Page 8 MWeaver_09242021

Section 000 Page 9 MWeaver_09242021

renewed if the applicant has not submitted all required driller's reports, applications for drilling permits, fees, agreed civil penalties, has not complied with all orders requiring repair or abandonment decommissioning of improperly constructed wells or is not otherwise in compliance with Sections 42-235 and 42-238, Idaho Code, and the applicable rules.

(7 1 21)T(____)

- **03. Compliance History.** If the Director determines that the applicant has exhibited an unacceptable compliance history, the Director may deny renewal, refuse renewal for a specified time, or renew with conditions, including but not limited to an increased bond amount.

 (7-1-21)T(_____)
- **Renewal of Expired Licenses or Operator's Permits.** A license or an operator's permit which has expired or otherwise not been in effect for a period not exceeding three (3) years shall be renewed in accordance with the requirements of Rule 35 or Rule 36 as appropriate. An applicant for renewal shall provide verification of earned credit units hours required for the entire period since the license or class II operator's permit was last issued. If a license or operator's permit has been expired or otherwise not effective for a period of more than three (3) years, an application for a new license application shall be submitted in accordance with Rule 30 for an individual license, Rule 31 for a company or Rule 32 for an operator's permitthese Rules. The director may waive the examination requirement if the applicant has been previously licensed or permitted in the state of Idaho.
- **05. Reuse of Identification Numbers.** The identification number assigned to a license by the department will not be reused if the license has been expired or otherwise not in effect for three (3) years or more except, at the director's discretion, the number may be reissued to the original owner. (7 1 21)T(_____)
- has not or cannot fully comply with these rules, a license or operator's permit may be issued with conditions. If the Director determines that the applicant is not qualified or has documented violations of well drilling laws and/or rules, the Director will deny the application. When there are documented violations of well drilling laws and/or rules, including well construction standards, the Director may consult with the Driller's Advisory Committee, created in accordance with Rule 80, prior to making a decision to issue a conditional license or operator's permit or to deny an application based on the applicant's compliance history. Notice of a denied application or a conditioned license will be given as provided in IDAPA 37.01.01, "Rules of Procedure of the Idaho Department of Water Resources."

038037. -- 049. (RESERVED)

050. DUTIES AND RESPONSIBILITIES OF DRILLERS, COMPANIES AND OPERATORS (RULE 50).

01. Licensed Drillers and Principal Drillers. All licensed drillers and principal drillers shall:

(7-1-21)T(____)

- a. Allow drilling only by those authorized by and under the supervision required by these rules and according to any conditions of the license or permit. (7-1-21)T
- **b.** Complete each well in compliance with IDAPA 37.03.09, "Well Construction Standards Rules," and drilling permit conditions.
 - c. Have Maintain a valid cash or surety bond in effect, as defined in Rule 60. (7-1-21)T(______)
- d. Have <u>Display</u> the <u>driller or company</u> license number <u>displayed</u> in a conspicuous place on the drill rig using a metal identification plate <u>provided issued</u> by the department or other permanent marking approved by the director. The <u>displayed license number shall represent the company or individual driller license under which the well is being drilled. One If requested by the applicant, one plate will be issued upon initial licensure with replacement and additional plates available for a fee. Replacement plates or additional plates are available for a fee.</u>

 $\frac{(7-1-21)T}{(}$

e. Keep current the department's list of operators and drillers employed by the licensed driller or

company, including current addresses for the company, drillers, and operators. The licensed driller or principal driller shall be held responsible for all drilling activity of a driller or operator under their supervision until such notification has been submitted in writing to the department that the driller or operator is no longer employed by the licensed driller or company. Have at the drilling site the driller's license and drilling permit or other written authorization from f. (7-1-21)T(____) the director to drill the well. Only drill wells in contaminated areas identified by the department or in areas of drilling concern so designated by the department with specific written authorization of the director. Verbal authorizations to drill and pre-approved drilling permits (start eards) do not authorize drilling in these areas. Obtain specific written authorization from the director to drill: • in contaminated areas identified by the department; • in areas of drilling concern designated by the department; • a public drinking water supply well, as defined in IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems"; low temperature geothermal resource wells; and geothermal resource wells. Verbal authorizations to drill and pre-approved drilling permits (start cards) do not authorize drilling in these areas. $\frac{(7-1-21)T}{(}$ Only drill a public drinking water supply well, as defined in IDAPA 58.01.08, "Idaho Rules for Public Drinking Water Systems," low temperature geothermal resource or geothermal resource well with specific written authorization from the director. Verbal authorizations and start eard permits (start eards) are not authorized for these uses. Monitor and record bottom-hole temperature in areas where low temperature geothermal resources are known or suspected or when the well is being constructed pursuant to IDAPA 37.03.09, Rule 30, as a low temperature geothermal resource well. Bottom-hole temperature of every well being constructed pursuant to IDAPA 37.03.09, Rule 30, must be measured, recorded, and reported on the well drillers report. Maintain a daily well log at the drilling site acceptable to the department and as required by Section 42-238(11), Idaho Code. Pertinent data required to be recorded on the daily log must include information sufficient to complete a well drillers report acceptable to the Director. The driller shall retain the well log for at least one (1) year after the driller's report is submitted to the department. $\frac{(7-1-21)T}{(}$ Submit driller's reports, acceptable to the Director, on forms approved by the department within thirty (30) days following removal of the drill rig from the drilling site at completion of the well. Driller's reports shall be prepared from information recorded on the daily well log. Driller's reports returned to the driller due to deficiencies must be corrected and returned to the department within thirty (30) days of mailing by the department. Attach a well tag supplied by the department to every well drilled for which a drilling permit is required. The tag shall be affixed permanently to the casing, or other permanent object attached to the well, by a method approved by the Director prior to removing the well rig from the drilling site. Cause all drilling activity under the supervision of the driller to cease when the driller's license expires, becomes invalid, or is suspended or revoked. $\frac{(7-1-21)T}{(}$

02.

Companies. Companies shall:

(7-1-21)T()

Have a principal driller designated with the department at all timesalways designated with the Department and keep current the Department's contact information to include a valid phone number for the principal driller. (7-1-21)T(Notify the department within ten (10) days of the principal driller leaving employment with the company. The company's license shall immediately become void and of no effect when the principal driller leaves employment with the company and shall remain so until the department has been notified in writing that a new principal driller has been employed and designated by the company. Failure to designate a principal driller within ninety (90) days of the departure of the designated principal driller is cause for the director to take action to cancel the company's license. Maintain a bond in force at all time Always maintain a bond as required in Rule 60.(7.1-21)T(c. 03. **Operators**. Operators shall: $\frac{(7-1-21)T}{(}$ Have in their possession a valid operator's permit while operating drill rigs or drilling a. wellsequipment. b. Only drill wells as authorized by the operator's permit. Maintain a complete and accurate well log at the drilling site. c. d. Co-sign with the driller a driller's report with the licensed driller upon completion of the well. $\frac{(7-1-21)T}{(}$ 051. -- 059. (RESERVED)

060. BONDING (RULE 60).

01. Bonding Requirements. Each licensed driller or company shall submit a surety bond or cash bond in an amount determined by the director, within the limits of 42-238, Idaho Code, for covering each driller all drillers and operators employed by the company, payable to the director for the licensing period. If the licensed driller drills wells as an individual and not for a company, a separate bond must be filed with the director.

(7-1-21)T(____)

- a. The amount of the bond will be determined by the director based on the applicant's compliance history, the size and depth of wells the applicant proposes to construct and is authorized to drill, the complexity of the wells, the resource to be recovered, the area of operation of the applicant, the number of drillers and operators employed by a company, and other relevant factors. A company shall have a bond, which covers the drilling activities of each driller and operator employed by the company. If the licensed driller drills wells as an individual and not for a company, a separate bond must be filed with the director.

 (7-1-21)T(____)
- b. Drillers proposing The amount of the bond required prior to drill-drilling wells in an area of drilling concern, and/or drilling monitoring wells, public water supply wells, or wells to obtain or likely to encounter water with a bottom hole temperature meeting the definition of a low temperature geothermal resource as defined by Section 42-233, Idaho Codegreater than eighty five (85) degrees Fahrenheit, shall submit an upgraded bond, in an amount determined by the director, at the time the drilling permit application is processed. Drillers anticipating drilling such wells may, instead, submit adequate bonding at the time of driller license application or renewal. be the maximum amount allowed by Section 42-238, Idaho Code.

 (7 1-21)T(_____)
- c. The amount of the bond, within the limits prescribed in Section 42 238, Idaho Code, will be determined by the director based on the applicant's compliance history, the size and depth of wells the applicant proposes to construct and is authorized to drill, the complexity of the wells, the resource to be recovered, the area of operation of the applicant, the number of drillers and operators employed by a company, and other relevant factors.
