Re: In the Matter of Accounting for Distribution of Water to the Federal On-Stream
Reservoirs in Water Districts 1 and 63

Dear Director Spackman,

This letter is to inform you, as a matter of comity, that the United States will not be participating in the contested cases recently noticed for Water Districts 1 and 63. In our view, the Government is under no obligation to do so and the United States would not be bound by the results because the contested cases do not meet the requirements of the McCarran Amendment, 43 U.S.C. § 666. At a minimum, the contested cases are premature in the absence of an adjudication of the underlying water rights. *South Delta Water Agency v. U.S. Dep't of Interior*, 767 F.2d 531, 541 (9th Cir. 1985).

Nonetheless, we remain interested in reaching a collaborative resolution of the issues relating to "refill" of Reclamation's reservoirs. To that end, we will continue to participate in the collaborative dialogue process you recently initiated with Reclamation and are open to discussing these issues in other settings as well.

Sincerely,

David Gehlert
