BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF A DECLARATION OF DROUGHT EMERGENCY FOR BUTTE COUNTY

ORDER DECLARING DROUGHT EMERGENCY

WHEREAS, the Butte County Board of Commissioners have requested that the Governor and the Director of the Idaho Department of Water Resources declare a drought emergency for Butte County to allow administrative actions to lessen the severe impacts of the drought conditions in the county; and

WHEREAS, Butte County includes parts of the Big Lost River and Little Lost River drainages; and

WHEREAS, the Big Lost River basin experienced below average snow pack with earlier than normal runoff, and the Little Lost River basin experienced near normal snow pack and runoff conditions; and

WHEREAS, the county has experienced very little precipitation after mid-April and the year to date precipitation is approximately 5 inches below average in both of the river basins; and

WHEREAS, lack of precipitation spring and summer of 2008 had resulted in drought conditions in the majority of the county; the northern tip of the county is experiencing abnormally dry conditions.

According to Section 42-222A, Idaho Code, which provides that upon declaration of a drought emergency for an area designated by the Director of the Department of Water Resources ("Director") and approved by the Governor, the Director is authorized to allow temporary changes in the point of diversion, the place of use, and the purpose of use for valid existing water rights and temporary exchanges of water rights when the Director determines that such changes can be accomplished in accordance with the provisions of section 42-222A, Idaho Code; and

The existing Amended Moratorium Order of the Director of the Department of Water Resources, dated April 30, 1993, applicable to the Eastern Snake River Plain Area, including Butte County, does not prohibit the processing or approval of applications for transfer of existing water rights;
NOW, THEREFORE, IT IS HEREBY ORDERED that pursuant to the authority of the
Director provided in section 42-222A, Idaho Code, a drought emergency for purposes of section
42-222A, Idaho Code, is hereby declared for Butte County, Idaho.

IT IS FURTHER ORDERED that pursuant to this declared drought emergency and the
provisions of section 42-222A, Idaho Code, the following procedures and requirements shall
apply to the filing, processing, and approval of any application for a temporary change to an
existing water right within Butte County during the pendency of this declared drought
emergency:

1. An application for a temporary change to an existing water right shall be made
upon forms provided by the department and shall be accompanied
by an application fee of fifty dollars ($50.00) per application.

2. The Director is not required to publish notice of the proposed change pursuant to
the provisions of section 42-211, 42-222(1), or 42-240, Idaho Code, and is not
required to make findings as provided in said sections. A temporary change may
be approved upon completion of the application form, payment of the filing fee,
and a determination by the Director that the proposed change can be properly
administered and there is no information that the change will injure any other
water right. If the right to be changed is administered by a watermaster within a
water district, the Director shall obtain and consider the recommendations of the
watermaster before approving the temporary change application.

3. All temporary changes approved pursuant to the provisions of this order shall
expire on the date shown in the approval, which shall not be later than December
31, 2008, and thereafter, the water right shall revert to the point of diversion and
place of use existing prior to the temporary change. Nothing herein shall be
construed as approval to authorize construction of a new well as a new point of
diversion.

4. The recipient of an approved temporary change issued pursuant to this order shall
assume all risk of curtailment or mitigation should the diversion and use of water
under the temporary change cause injury to other water rights, or result in an
enlargement in use of the original right.

5. Temporary changes shall only be approved for the purpose of providing a
replacement water supply to lands or other uses that normally have a full water
supply, except for the drought condition. Temporary changes may not be
approved to provide water for new development or to allow expansion of the use
of water under existing water rights. If the right to use the water is represented by
shares of stock in a corporation, or if the diversion works or delivery system for
such right is owned or managed by an irrigation district, no change in point of
diversion, place or nature of use of such water shall be made or allowed without
the written consent of such corporation or irrigation district.

ORDER DECLARING DROUGHT EMERGENCY - Pg 2
6. Any applicant for a temporary change who is aggrieved by a denial of the Director for a temporary change pursuant to this order and the provisions of section 42-222A, Idaho Code, may request a hearing pursuant to section 42-1701A(3), Idaho Code, and may seek judicial review of the final order of the Director pursuant to the provisions of section 42-1701A(4), Idaho Code.

IT IS FURTHER HEREBY ORDERED that this order is effective upon approval of the Governor and expires on December 31, 2008, unless extended or terminated by order of the Director.

DATED this 17th day of September, 2008.

DAVID R. TUTHILL, JR.
Director

APPROVED this 18th day of September, 2008.

C.L. "Butch" OTTER
Governor
