

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE

STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

2004 NOV 16 PM 4:36
COURT-SRBA
TWIN FALLS CO., IDAHO
FILED

IN RE SRBA)

CASE NO. 39576)

PARTIAL DECREE FOR

Federal Reserved Water Right 81-10625

Middle Fork Clearwater Wild and Scenic River

1. Name and address of owner: UNITED STATES OF AMERICA, on behalf of the
U.S.D.A. Forest Service
550 W. Fort Street, MSC033
Boise, ID 83724

2. Source of water: Middle Fork Clearwater River

3. Quantity of right: a. When the stream flow at the Middle Fork Clearwater River quantification site as defined in Section 3.d. below ("Middle Fork Clearwater site") is less than 37,900 cfs, the United States is entitled to the following flows:

Period of Use	Discharge (cfs)	Period of Use	Discharge (cfs)
January 1-15	2070	July 1-15	6250
January 16-31	2070	July 16-31	3100
February 1-15	2070	August 1-15	2320
February 16-28(29)	2070	August 16-31	1730
March 1-15	2070	September 1-15	1480
March 16-31	4040	September 16-30	1660
April 1-15	6850	October 1-15	1920
April 16-30	12700	October 16-31	2070
May 1-15	18200	November 1-15	2070
May 16-31	25100	November 16-30	2070
June 1-15	22000	December 1-15	2070
June 16-30	13000	December 16-31	2070

b. When the stream flow at the Middle Fork Clearwater site is greater than or equal to 37,900 cfs (as adjusted by upstream junior depletions, including depletions from water rights enjoying the subordination provided in this right), the United States is entitled to all flows, up to 80,700 cfs.

SCANNED
NOV 17 2004

c. This water right does not prohibit the appropriation, diversion and use of water within the Middle Fork Clearwater River basin upstream from the ending point of the Middle Fork Clearwater Wild and Scenic River at the town of Kooskia when the stream flow at the Middle Fork Clearwater site exceeds the flow amount in Section 3.a. and is less than 37,900 cfs.

d. The quantification site for the flows identified above is at or above the ending point described below, either: based on the sum of the discharges measured at the USGS Lochsa River near Lowell gage, number 13337000, located in SW1/4SE1/4, Sec. 33, T33N, R7E, Boise Meridian; Latitude N 46° 09' 2.1", Longitude W 115° 35' 10.6", and at the USGS Selway River near Lowell gage, number 13336500, located in SE1/4NE1/4, Sec. 25, T32N, R7E, Boise Meridian; Latitude N 46° 05' 11.6", Longitude W 115° 30' 46.3", or the discharge measured at a new stream gage to be established in the vicinity of the ending point described below.

e. This water right precludes any diversion of water out of the watershed of the Middle Fork Clearwater River Basin upstream from the ending point of the Middle Fork Clearwater Wild and Scenic River at the town of Kooskia, except for transfers of points of diversion from above the ending point to below the ending point.

4. Priority date:

October 2, 1968.

5. Point of diversion:

There is no diversion associated with this instream flow water right. The legal description of the beginning and ending points of the instream flow water right are as follows:

Beginning point: Confluence of the Lochsa and Selway Rivers at the town of Lowell, Idaho -- NW1/4SW1/4, Sec. 4, T32N, R7E, Boise Meridian; Latitude N 46° 08' 25.0", Longitude W 115° 35' 54.8".

Ending point: Town of Kooskia, Idaho -- NE1/4SW1/4, Sec. 4, T32N, R4E, Boise Meridian; Latitude N 46° 08' 26.6", Longitude W 115° 57' 54.5".

- 6. Purpose of use:** To fulfill the purposes of the Wild and Scenic Rivers Act, Pub.L. 90-542, 82 Stat. 906, Oct. 2, 1968 (codified as amended at 16 U.S.C. §§ 1271, et seq.).
- 7. Period of use:** 01-01 to 12-31.
- 8. Place of use:** This instream flow water right is used throughout the designated Middle Fork Clearwater Wild and Scenic River from the beginning point to the ending point as identified above.
- 9. Annual volume of consumptive use:** This instream flow water right is non-consumptive (other than evaporation and evapotranspiration which may take place within the designated segment).
- 10. Other provisions necessary for definition or administration of this water right:**
- a. This is a federal reserved water right based on the Wild and Scenic Rivers Act, Pub.L. 90-542, 82 Stat. 906, Oct. 2, 1968 (codified as amended at 16 U.S.C. §§ 1271, et seq.).
 - b. This Partial Decree is entered pursuant to that Stipulation among the United States, the State of Idaho and other objectors effective September 1, 2003 (the "Stipulation"), and pursuant to that Stipulation this water right is subordinated to the following water rights and uses that are junior to this federal reserved water right and that have points of diversion or impoundment and places of use within the Middle Fork Clearwater River Basin upstream from the ending point, as described in element 5 above:
 - (1) All water right claims filed in the Snake River Basin Adjudication (SRBA) as of the effective date of the Stipulation to the extent ultimately decreed in the SRBA.
 - (2) All applications for permit and permits with proof of beneficial use due after November 19, 1987, on file with IDWR as of the effective date of the Stipulation, to the extent such applications for permit or permits are ultimately licensed; and all water right licenses with proof of beneficial use due after November 19, 1987, on file with IDWR as of the effective date of the Stipulation.

(3) All domestic uses, which for purposes of this Partial Decree shall be defined as set forth at I.C. § 42-111(1)(a) & (b) to mean the use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to one-half acre of land, if the total use is not in excess of thirteen-thousand (13,000) gallons per day or any other uses, if the total does not exceed a diversion rate of four one-hundreds (0.04) cubic feet per second and a diversion volume of twenty-five hundred (2,500) gallons per day, provided that this domestic use subordination is limited and defined by I.C. 42-111(2), so that the subordination shall not and does not apply to multiple ownership subdivisions, mobile home parks, or commercial or business establishments, unless the use meets the diversion rate and volume limitations set forth in I.C. 42-111(1)(b) (0.04 cfs/2,500 gpd), and by I.C. 42-111(3), so that the subordination shall not and does not apply to multiple water rights for domestic uses which satisfy a single combined water use that would not itself come within the above definition of domestic use.

(4) All de minimus stockwater uses, which for the purposes this Partial Decree shall be defined as set forth at I.C. § 42-1401A(11) to mean the use of water solely for livestock or wildlife where the total diversion is not in excess of thirteen-thousand (13,000) gallons per day. This de minimus stockwater use subordination is limited and defined by I.C. § 42-111(3), so that the subordination shall not and does not apply to multiple water rights for stockwater uses which satisfy a single combined water use that would not itself come within the above definition of stockwater use.

(5) (A) Water rights other than those described in paragraphs (3) and (4) above claimed or applied for after the effective date of the Stipulation with a total combined diversion of 40 cfs (including not more than 500 acres of irrigation with a maximum

diversion rate of 0.02 cfs/acre. The 40 cfs of diversion and not more than 500 acres of irrigation are in addition to the 40 cfs of diversion and not more than 500 acres of irrigation from each, the Selway and Lochsa Rivers upstream from their confluence with the Middle Fork Clearwater River. This subordinated amount does not include storage, other than incidental storage, which is defined as storage of not more than a 24 hour water supply for any beneficial use.

(B) Water rights of the United States, instream flow water rights, nonconsumptive water rights and replacement water rights shall not be deducted from the subordination amounts identified in this paragraph (5) for future rights. Nonconsumptive water rights mean all beneficial uses of water having these characteristics: i) the use involves no diversion from the designated reach of the Wild and Scenic River as identified in this Partial Decree; ii) all return flows from the use accrue to the Wild and Scenic reach; and iii) the use does not cause a depletion or a change in timing of the flow (other than incidental evaporation or seepage) as determined at the point(s) of return, whether or not the depletion or change in timing can be measured within the designated reach. Examples of such uses include: i) run-of-the-river hydroelectric facilities; ii) fish propagation uses; and iii) other similar uses. Replacement water rights means all irrigation appropriations issued for the same purpose of use and place of use covered by an existing water right with no increase in period of use, diversion rate, and, if applicable, volume of water. To be considered a replacement water right: i) no element of the new appropriation may exceed that of the original water right; ii) only the original or the replacement water right or part of each water right may be used at the same time; and iii) the replacement water right cannot be used when water would not be legally and physically available under the original water right.

c. The administrative provisions of paragraph 3 of the Stipulation are incorporated herein by reference.

d. These additional provisions contained in element 10 do not fall within the other elements listed above and are necessary to: (1) define the unique characteristics of these federal reserved water rights; and (2) describe the rights and uses to which these federal reserved water rights are subordinated in order to provide for proper administration of these water rights and other existing and future water rights.

IT IS SO ORDERED.

DATED November 16, 2004.

JOHN M. MELANSON
Presiding Judge
Snake River Basin Adjudication
