The Dworshak Small Hydropower Plant is a 3MW power plant located approximately 1 mile south of the Dworshak Dam on the North Fork of the Clearwater River. The Power Plant sits atop a distribution structure that provides water to the Dworshak National Fish Hatchery. Water is provided for the Plant’s two generators via two penstocks from the dam and discharged into the distribution structure.

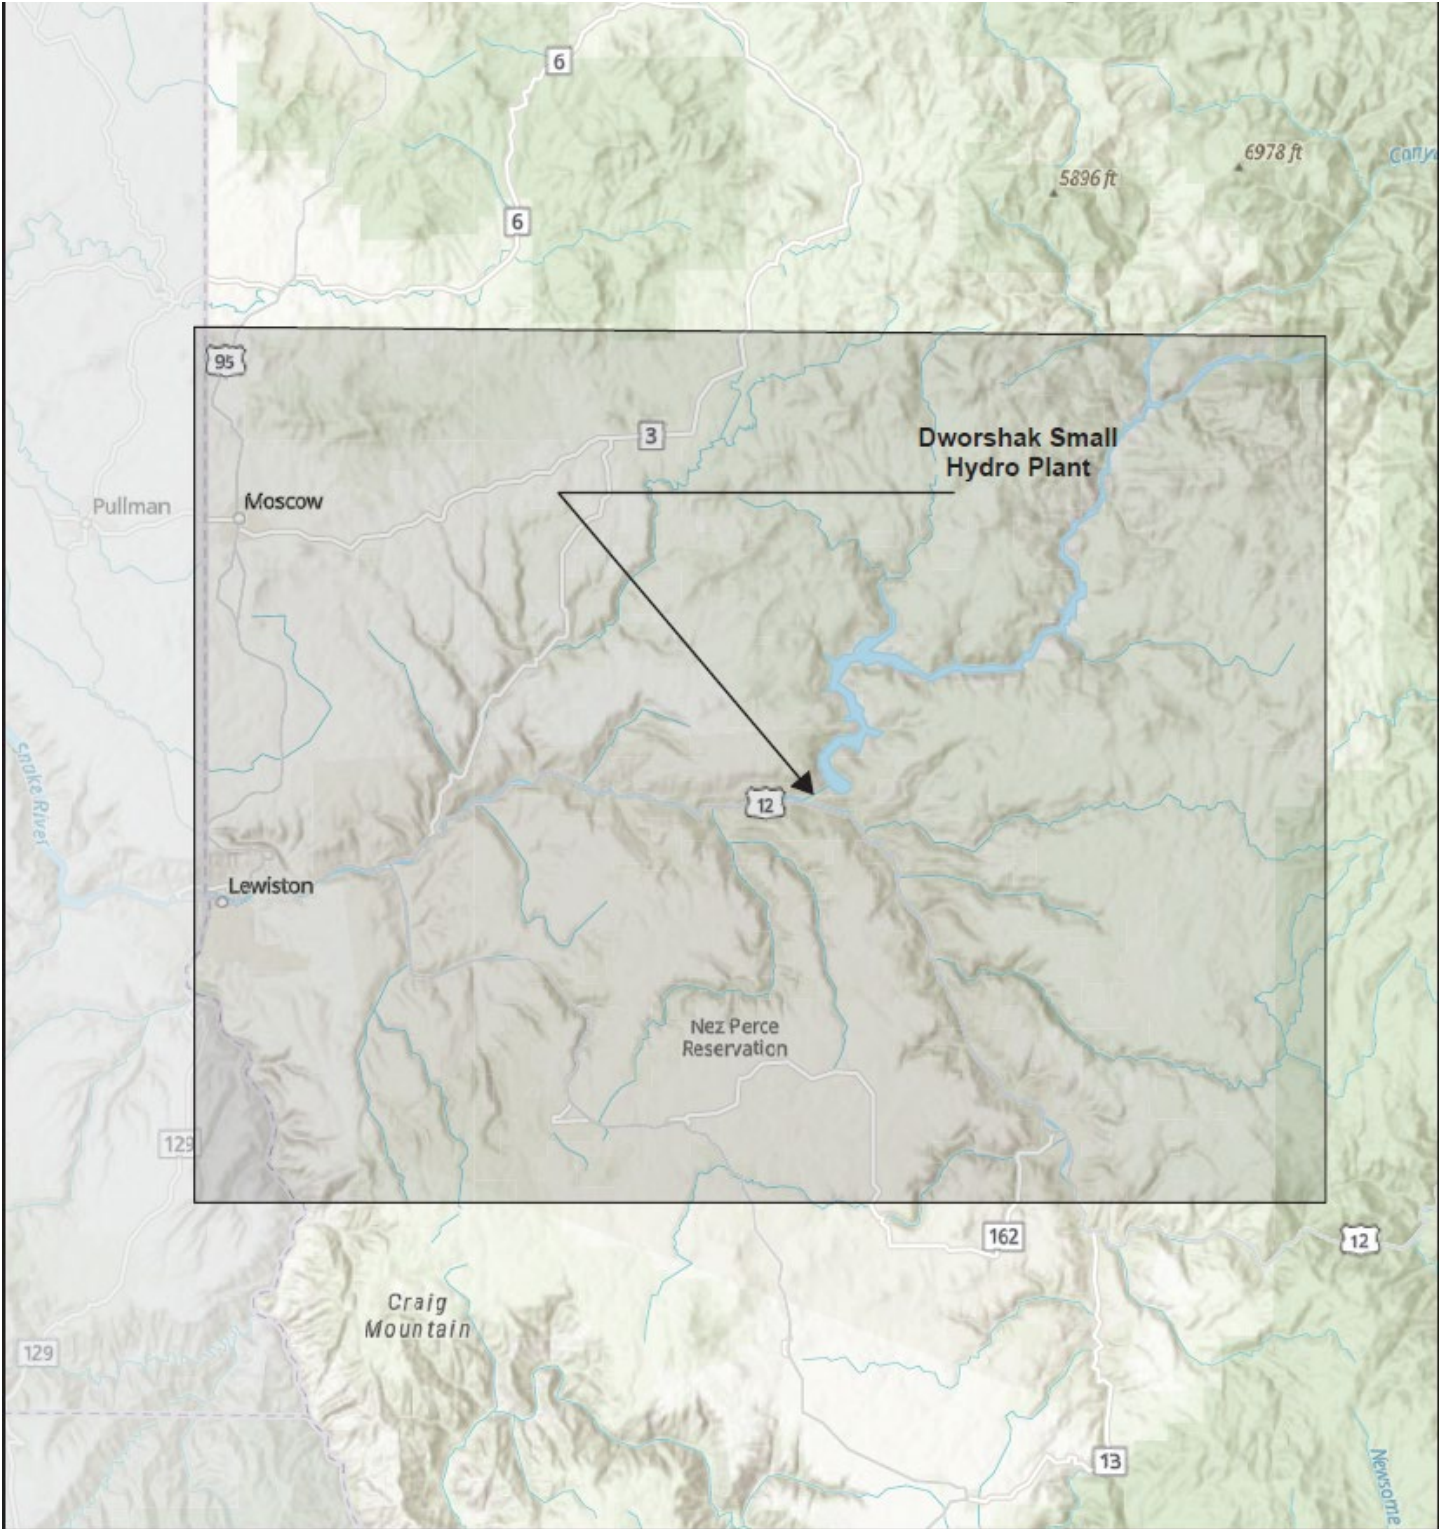

The Power Plant was constructed in June of 2000 for a cost of \$5.5 Million. The Plant's output, approximately 17.5 GWh per annum, is transmitted to the Bonneville Power Authority through a wheeling agreement with the local power utility, Clearwater Power.

Draft Contract

## CONTRACT FOR OWNER'S ADVISOR SERVICES

CONTRACT NO. XXXXX

This Contract, between the Idaho Water Resource Board (Board) and XXXXX (Contractor), references the following facts:

- A. The Board owns and operates the Dworshak Small Hydropower Project (Facility) on the North Fork of the Clearwater River near Orofino, Idaho.
- B. The Facility has been in continuous operation since its commissioning in 2000.
- C. There have been no significant changes or upgrades to the Facility since it was commissioned in 2000.
- D. Over the last five years, there have been increased incidences of unscheduled maintenance and downtime due to worn or aging equipment.
- E. The Board requests that the Contractor provide the services of an Owner's Advisor to conduct a condition assessment of the Facility; identify systems needing replacement or repair; assist the Board in procuring contractors to perform this work; and develop improved Facility operating, safety, and emergency procedures.

The parties agree as follows:

### 1. DEFINITIONS

- A. "Board" shall mean the Idaho Water Resource Board, Staff, and the Project Coordinator.
- B. "Days" shall mean calendar days unless specifically stated otherwise.
- C. "Key Professional Personnel" shall mean the identified individuals essential to the Project and can include those in the employ of Contractor as well as subcontractors of Contractor.
- D. "Project" shall mean the entire effort to assess the condition of the Facility; identify systems needing replacement or repair; procure contractors to perform that work; and develop improved operating, safety, and emergency procedures for the Facility.
- E. "Project Coordinator" shall mean that person appointed by the Board to administer this Contract on behalf of the Board and the term includes, except as otherwise provided in this Contract, an authorized representative of the Board's Project Coordinator acting within the limits of their authority.
- F. "Project Manager" shall mean that person appointed by the Contractor to administer this Contract on behalf of the Contractor.
- G. "Staff" shall mean the staff of the Idaho Department of Water Resources that perform work for the Board.

- H. “Subcontractor” shall mean one, not in the employment of any party to this Contract, who is performing part of those services under this Contract on behalf of the Contractor or any person directly or indirectly in privity with the Contractor, including the furnishing of labor, materials, equipment, supplies, services or otherwise. The terms “subcontractor” and “subcontractors” mean subcontractor(s) in any tier.

## **2. PROJECT COORDINATION**

- A. The Board’s Project Coordinator shall be **XXXXXXXX**. The Board or anyone authorized to act on its behalf may change the Project Coordinator at any time by written notice served on the Contractor.
- B. The Contractor’s Project Manager shall be **XXXXXXXX**. The Project Manager shall have full authority to act on behalf of the Contractor, unless specified otherwise in this Contract.

## **3. SCOPE OF SERVICES**

- A. The Scope of Services will be negotiated in phases. The initial phase, Phase I – Condition Assessment, is outlined in Attachment A, attached and incorporated by this reference. The scope of services for the remaining phases (Phase II – Facility Documentation, and Phase III – Contractor Procurement Services) will be negotiated as the time for each phase approaches. Each newly negotiated Scope of Services will be attached and incorporated into this Contract.
- B. Once the Board has issued a written Notice to Proceed, Contractor shall provide the services outlined in the Scope of Services.

## **4. IDAHO PROFESSIONAL LICENSE**

- A. At all times during the Term of this Contract, the Project Manager must maintain a Professional Engineering License (PE) in at least one state within the United States.
- B. The Project Manager must hold a PE issued by the State of Idaho prior to submitting any professional document requiring an Idaho PE, including to any State of Idaho or federal agencies.
- C. Failure of the Project Manager to obtain an Idaho PE in time to submit a professional document required under the Scope of Services will constitute a breach of contract. When the Contractor discovers a breach of contract under this section, Contractor must immediately provide written notice to the Board. Contractor can cure such breach of contract by replacing the Project Manager with someone who has the required qualifications, as approved by the Board. Contractor must provide the Board an alternate candidate proposal no later than 10 days after the Board receives notice of Contractor’s breach of contract. The Board has 10 days to approve or disapprove of Contractor’s alternate candidate. If the Board disapproves of the alternate candidate, Contractor may provide within 10 days of the Board’s disapproval a second alternate candidate for the Board’s consideration. The Board has 10 days to approve or

disapprove the Contractor's second alternate candidate. If the Board disapproves the second alternate candidate, the Contract will be terminated for default pursuant to Section 12.

## **5. STANDARD OF PERFORMANCE**

- A. The standard of care for all professional engineering and related services performed or furnished by Contractor under this Contract will be the care, skill, and diligence others in the profession ordinarily exercise in like circumstances.
- B. Contractor shall be responsible for the technical accuracy of its services and documents resulting from Contractor's services. The Board shall not be responsible for discovering errors or omissions in the Contractor's services and documents. Contractor shall correct such errors or omissions without additional compensation except to the extent errors or omissions are directly attributable to deficiencies, errors, or inaccuracies in Board furnished information. The Board shall provide accurate information to the Contractor.
- C. If at any time during the performance of this Contract (Phases outlined in paragraph 3.A), Contractor observes what appears to be a deficiency in the Project, any nonconformance with federal, state or local law, rule or regulation, or has any objection to any decision or order made by the Board with respect to such laws, rules, or regulations, Contractor shall give prompt oral notice to the Project Coordinator. Notwithstanding the foregoing, any such observation or conclusion is for the limited purpose of increasing the Project Coordinator's awareness of the Project's progress and the Design-Builder and related parties remain primarily responsible for satisfying their obligations under their respective agreements. Oral notice shall be followed within 24 hours by written notice via email to the Project Coordinator. Any delay or failure on the part of the Board or Project Coordinator to provide a written response to Contractor will neither constitute agreement with nor acquiescence to Contractor's statement or claim, nor constitute a waiver of any of the Board's rights. This provision applies to Contractor's technical performance, observance of Design-Builder's activities, commissioning operations, and any work performed or document produced by any party involved in the Project.

## **6. CONFLICT OF INTEREST**

- A. A conflict of interest shall include transactions, activities, or conduct that would affect the judgment, actions, or services of the Contractor by placing Contractor's own interests, or the interest of any party with whom Contractor has a contractual arrangement, in conflict with the interests of the Board.
- B. Contractor agrees that it and its subsidiaries, affiliates, subcontractors, principals, and employees shall not engage in any transaction, activity, or conduct which would result in a conflict of interest. Contractor represents that it has disclosed any current or potential conflicts of interest.

- C. The Board, in its reasonable discretion, will determine the existence of a conflict of interest and will provide Contractor written notice which describes the conflict. The Board will have the right to terminate this Contract in the event Contractor fails to cure the identified conflict of interest to the reasonable satisfaction of the Board within 15 days after the notice is received.

## **7. AUTHORIZED PERSONNEL AND SUBCONTRACTORS**

- A. All of Contractor's Key Professional Personnel, identified in Attachment B, will be assigned by Contractor to perform services under this Contract. It is the intent of the parties that all Key Professional Personnel be engaged to perform their specialty for all such services required by this Contract and that Contractor's Key Professional Personnel be retained for the Term of this Contract to the extent practicable and to the extent that such services maximize the quality of services performed under this Contract.
- B. If Contractor decides to replace any of its Key Professional Personnel, it shall notify the Board in writing of the changes it desires to make. No replacement of Key Professional Personnel shall be made until the replacement is approved in writing by the Board. The Board's approval will not be unreasonably withheld. The Board will respond to the Contractor's written notice within 15 days after the Board receives the list of Key Professional Personnel which Contractor desires to replace. If the Board does not respond within that time, the identified Key Professional Personnel will be deemed to be approved by the Board. It is the Board's expectation that Contractor will make all reasonable efforts to ensure the Project Manager is available for the duration of the Project.
- C. If during the term of this Contract, the Board or the Project Coordinator determines that the performance of approved Key Professional Personnel or subcontractor is not acceptable, the Project Coordinator will notify Contractor and give Contractor the time which the Project Coordinator considers reasonable to correct such performance. If the performance is not adequately corrected, the Project Coordinator may require the Contractor to reassign the Key Professional Personnel or subcontractor. If the Project Coordinator notifies the Contractor that Key Professional Personnel or subcontractor must be reassigned, Contractor shall use its best efforts to obtain adequate substitute personnel within 15 days from the date of notice.
- D. While the Contractor may retain and subcontract with subcontractors to provide services under this Contract, no final agreement with any subcontractors shall be entered into without the prior written consent of the Project Coordinator. Request for approval of subcontractors must be made in writing and include a description of the nature and extent of the services to be provided by the subcontractor, the name, address, the professional experience, qualifications of the subcontractor, and any other relevant information. Approval of the subcontractor shall not relieve Contractor of any obligation under this Contract. Any final agreement with the approved subcontractor must contain a valid and binding provision whereby the subcontractor waives any and all right to make a claim of payment against the Board, the Idaho Department of Water

Resources, or the State of Idaho arising out of the performance of services under this Contract. Subcontractors listed in Attachment B will be deemed acceptable unless the Board or Project Coordinator subsequently issues a notification of rejection.

- E. Contractor shall not retain any subcontractor to perform services under this Contract if the Contractor is aware, after a reasonable inquiry, that the subcontractor is connected with the sale or promotion of equipment or materials which are or may be used on the Project or that any other conflict of interest exists. In some circumstances, the Board may permit a waiver in writing of the subcontractor's conflict of interest provided that Contractor has fully disclosed any conflict of interest.

## **8. COMPENSATION**

- A. This Contract is a not to exceed contract. Upon presentation of invoices associated with the Scope of Services, the Board shall pay the Contractor up to a total amount not to exceed \$[Contract Amount].
